Accessing the internet via ACS Athens Wireless Network

Visitors, guests, associates, members of the ACS Athens faculty and staff are allowed to access the internet using their own devices. The ACS Athens Wireless Network covers all campus providing secure access to the internet.

- ✓ ***First Step – Connect your device to the ACS_OPEN Network***

  **This step has to be done only once per device*

  Go to the Wireless Settings (Wi-Fi) of your device and **select** the **ACS_OPEN** network

  When prompted for a security key/passphrase/password type **acswireless**

  *After successfully connecting to ACS_OPEN, **you do not have internet access yet!***

- ✓ ***Second step – Identify yourself for internet access***

  To access the internet you have to authenticate **yourself**. Open a web browser (Internet Explorer, Safari, Firefox, Chrome, Opera) to access **ACS Athens Internet Access Portal**.

  When you try to access ANY web page you will be redirected to the portal, if you are not authenticated.

  https://acsfw01.acs.gr/connect/PortalMain

  Type in your **username / password** - the one you use to log on to any of the ACS Athens computers on campus. If you do not have a user name and password, you may **ask for a guest username/password. For any problem please contact the IT office (Ext. 246 / 210.6070.246 /makrism@acs.gr)**.

Note*: Special school groups like the ACS PTO and the ACS BOARD members have their own accounts to use.*

Successful Authentication to the ACS Athens Internet Access Portal gives you the permission to access the internet for 8 hours. After 8 hours have passed you have to re-authenticate using the ACS Athens Internet Access Portal.
