Please join ICAA Rocky Mountain Chapter for a tour of another outstanding Denver Landmark, the Cathedral Basilica of the Immaculate Conception located at 1530 Logan Street, Denver Colorado.

Architect Leon Coquard of Detroit, designed the cathedral in the French Gothic style. Its character is influenced by the 13th century Saint Nicholas Collegiate church (collégiale Saint-Nicolas) of Munster, Moselle, France- the birth village of bishop Nicholas Chrysostom Matz, who supervised its construction. The building features two 210-foot (64 m) spires, and is made of limestone from Indiana, and granite from Gunnison, Colorado. The altar, statuary, and bishop's chair are all composed of marble from Carrara, Italy; the 75 stained glass windows are from Franz Xaver Zettler's Royal Bavarian Art Institute in Munich.

**Location:** Meet for coffee at The Desk, 230 East 13th Avenue, Denver, CO

**Cost:** \$10 General, no cost to ICAA Members
