VISION:
It is our determination to raise up godly leaders in Haiti through education to strengthen their families, neighbors and country, bringing relief to poverty and stimulating the economy, and to preach the Good News so that lives will be saved and hope for a strong future will be given to Haiti.

GOAL:
Our goals have always included an elementary school. After the earthquake in January, this project became even more necessary to complete urgently. Many children have not been able to return to school due to damaged facilities and high school fees. As a part of our Disaster Response Plan, we put into action plans to open five primary classes from preschool to grade 4 this coming fall 2010. Construction of temporary classes began July 1, 2010 and our Education directors opened registration, receiving 200 students.

PLAN:
In the following pages, you will find a project implementation plan, estimates for each portion of the project including:
- Construction of 6 classrooms
- Director’s office construction
- Construction of classroom furnishings
- Employment of Teaching, Maintenance and Administrative staff for the 1st year of the school.

TOTAL PROJECT COST: $34,634

We appreciate your support of this endeavor. Your investment into the education and lives of young people’s will help bring a brighter future for the next generation.
The operations of an elementary school at Haiti ARISE will be guided by the following Project Implementation Plan.

School Name
College Le Renouveau d’Haiti (The Renewed School of Haiti)

Curriculum
To be recognized by the Haitian government, the program to be used for our school will be the state required curriculum. We will also include extracurricular classes. The subjects included:

- Language Arts in French, English & Creole
- Mathematics
- Social Studies in History, Geography, Civic, Religion, Health & Hygiene
- Science & Laboratory Studies
- Computer Science
- Reading & Writing
- Music & Art
- Physical Education

Teacher Qualifications
The teachers employed by Haiti ARISE for the elementary school will be selected by the following qualifications:

- Degree in Early Childhood Education or Elementary Education
- 5 years of experience
- Certificate of high school completion (In Haiti it is possible to go to college without finishing high school. For this reason, this must be specified)
- Ability to work with children
- In good health condition
- Present a letter of reference
- Criminal Background Check
- Ability to work as a team

Criteria Selection of Student, Preschool
Children registered to attend the preschool will be selected by the following criteria:

- Children must be at least 3 years of age
- Must be able to speak
- Present a piece of identity (birth certificate or certificate of baptism)
- Report card from previous schools attended, if applicable
- Has a guardian or parent who is responsible for their care

Criteria Selection of Student, Elementary (1-4 grade)
Children registered to attend the elementary school will be selected by the following criteria:

- Children must be at least 6 years of age
- Present a piece of identity (birth certificate or certificate of baptism)
Plan
Plan Implement du Projet
Project Implementation Plan

HAITI ARISE ELEMENTARY SCHOOL PROJECT PROPOSAL

Continued...
- Report card from previous schools attended, if applicable
- Has a guardian or parent who is responsible for their care
- Certificate of health, or report of vaccination

Order of Classes/ Program
This section describes the environment of classes provided for the students.
- The school will house seven classrooms for five levels; three classes for preschool with 25 students each, four classrooms for grade 1-4 with 30 students in each.
- Each preschool class will host 5 child-size tables. Each elementary class will host 7 bench-desks that can hold 4 students each, two can hold five in each class.
- Each classroom will have a teacher’s desk, bookshelves and blackboard.
- The directors office will be for the principle and director to work & keep student files.
- School days will run from 8am to 1pm. Each subject will be 30-45 minutes, with a 30 minute recreation time in the middle of the day’s schedule.
- One hot meal will be provided each midday during recreation.

Funding
- The construction of the temporary classes is being funded by Disaster Relief funds that were designated for this purpose. The rational for this designation is based on the loss of educational facilities in the communities of Grand-Goave due to the January 12th earthquake.
- The building of furnishing for classes is being funded by Haiti ARISE partners in Canada and US.
- The funding for elementary school staff salaries will need to be subsidized completely for the first year, 50% the second, and 25% for the third year of operations.
- Registration for students will be a small fee of $10 HA/ students, which equals $1.50 US.
- For the first year of the school's opening, the student fees will be very minimal to help families recover from the disaster of the earthquake. The amount is yet to be determined, but will not be more than $100 HA ($15 US) per student for the year. As we calculate throughout this year the cost of operations, the following 3 year’s fees will be raised slightly each year. This will help families value their child’s education and allow them to progressively adjust to the costs. The school will also gradually become self-sufficient, requiring less subsidized support each consecutive year.
- TOTAL PROJECT FUNDING: $31, 607. US, detailed in the following project estimates.
