Funding Plea to Help Cats with Medical Needs

What makes OAR so very special is our ability to go the extra mile to assist cats who desperately need the helping hand that no one has been able to give. Participants in this funding plea will help meet the needs of these cats, providing spay/neuter or medical care, and proactively reducing cat population growth in the community while improving their lives. Your donation will help Lincoln's Fund, established through a generous donation by an OAR volunteer. She was touched by Lincoln (pictured, right), an elderly cat who showed only sweetness and spunk despite several painful ailments. Lincoln's Fund covers medical care that goes beyond vaccines, spay/neuter, and deworming (i.e., x-rays, diagnostic testing, and emergency care). Your donation will also help our spay/neuter clinic assist cats and caretakers in our community. Whether helping to spay and neuter the pets of low-income residents or providing care for a feral cat in need, your live auction donation will make a difference.
