Administration Office – 289 Jubilee Road, Muncey, Ontario N0L 1Y0  
T – 519-289-5396, F – 519-289-5156 Website: [www.munsee.ca](http://www.munsee.ca)

## OPPORTUNITY

### WATER 'OPERATOR IN TRAINING' (OIT)

Munsee-Delaware Nation is planning to develop a pool of candidates who have earned the qualification of Water 'Operator in Training' (OIT).

If you want to become trained in water treatment and are a Munsee-Delaware Nation member, we are pleased to announce that there will be training made available for the Water Treatment Plant.

Munsee-Delaware Nation will be paying for the cost of the study manuals and examination writing fees.

Applicants will be asked to provide their efforts for one week of self-study, followed by one week of classroom instruction in the community, with the examination being written on the Friday of the week of classroom instruction. The completed examination will be sent out to the licensing body, and each applicant will be informed of their results and a mark of 70% or over is considered a pass.

Passing the examination will give the applicants the designation of Water 'Operator in Training' (OIT). This is a provincial qualification that allows the person to work as a trainee in any water treatment plant in Ontario.

**To qualify for the training, the candidates will need to show that they have their Grade 12 Ontario Secondary School Diploma or equivalent.**

The Nation will interview the successful OIT's and will be offering at least one part-time employment opportunity. Other successful OIT's are free to use their qualification to pursue employment with other water treatment facilities. For more information, please access the web at

<http://owwco.ca/getting-your-certificate-or-licence-for-the-first-time/>

Please provide your contact information that will be used for registering you for the course and provide your original Ontario Secondary School Diploma (OSSD) or your Ontario High School Equivalency Certificate in person to:
