

Software test design and planning

Webcast: techtarget.com

<http://go.techtarget.com/r/2728448/6082770>

Participants: [Karen N. Johnson](#) and Michael Kelly

Format: Webcast

Run time: one hour

Topic:

This Webcast addresses the common challenges of software testing, highlighting key elements which must be examined when planning a test project. In the webcast, we look at how to create a test plan that best fits your project, what should be included in that plan, and review the types of documentation that might be required.
