listen up!

What would life be like if you *really* paid attention to that "inner voice," your truth, the way you *really* feel about yourself and the world around you? This is the story of one woman who did. *Woman Speak!* is a booming celebration of intuitive intelligence—the power that lives and breathes in the heart of every woman. Intimate, intense, funny, and brash, this book is full of "ah-ha's" and "oh-yeah's" we can all relate to. More than one woman's story of freedom and growth, it is the key we all hold to creating a better world for ourselves by living our deepest truth in our daily lives.

Discover how just one woman's story can help you:

- Hear the powerful guidance of your *own* inner voice
- Use your truth to make healthier choices for your body, mind, and spirit
- Become more vibrantly aware and active in your own life
- Heal yourself, your family, your community, and your world
- Embrace the life-sustaining importance of the ideas, dreams and demands you either ignore or put on hold
- Inspire other women to not only love, but *live*, their own intelligent wisdom

"Gail Lamb Roddy speaks for all women who have felt the heavy heel of men on their necks. What a courageous, unique spirit she is. Buy a dozen copies that you can have ready for a girlfriend who is having hard times. Gail's great genius will lift her up again!"
