Scenarios and Transformative change

Monday, 19th November 2018

In this programme, panellists from different stakeholder groups will present and discuss scenario results (quantitative and qualitative, across all scales and sectors) as a tool for thinking about a transformative change agenda for biodiversity. Sessions will cover insights on two major ongoing scenario-efforts, with panel discussions on the relevance of these analyses for transformative change and the post-2020 global biodiversity framework.

TIME	EVENT	Lead organisation /speakers / panellists
09:00-09:15	Welcome	Carolyn Lundquist
09:15-10:10	Scenarios and transformative change: how can scenario-analysis support the achievement of the CBD, UNFCCC and UNCCD objectives, the development of the new strategic plan and contribute to realising transformative change for biodiversity?	Carolyn Lundquist, David Cooper Derk Loorbach, Astrid Hilgers Anne Larigauderie, FAO (tbc)
10:10-10:30	<i>Break with drinks</i>	
10:30-10:45	Introduction to rest of the day	Simon Ferrier
10:45-11:45	Shared-Socio Economic Pathways (SSPs) & biodiversity	Paul Leadley, Rob Alkemade Piero Visconti, David LeClere
12:00-13:00	Bending the curve of 21st century biodiversity trends	David LeClere, Rob Alkemade Piero Visconti
13:00-14:00	<i>Lunch</i>	
14:00-15:10	Scenario-insights for operationalising the 2050 vision	Simon Ferrier, Piero Visconti David LeClere, Sarah Cornell WCMC (tbc), TNC/WWF (tbc), IUCN (tbc)
15:20-16:30	Interdisciplinary scientific support for sustainability transitions to bend the curve of biodiversity loss	Derk Loorbach, Mark Rounsevell Bernardo Strassburg, Fiona Kinniburgh Country representatives
16:30-16:45	<i>Break with drinks</i>	
16:45-18:00	Closing panel CBD Post-2020 and connections UNCCD, UNFCCC, SDG Agenda	Carolyn Lundquist, David Cooper Derk Loorbach, Sylvia Karlsson-Vinkhuyzen Bernadette Fischler (WWF), Joji Carino (FPP) Thomas Brooks (IUCN)
18:00-19:00	<i>Reception</i>
