

OUR LATEST INDOOR BIKE IS IN A CLASS BY ITSELF.

Schwinn® launched a phenomenon with the first production bike designed specifically for indoor cycling, and we've never looked back. Our newest bike, the AC™ Performance Plus, is designed to enhance rider comfort with an infinitely adjustable seat and handlebars, a wider step-through and durable, covered stretch pads – all surrounded by a rust-free aluminum frame. A stronger drive train and chain make for easy maintenance while delivering an authentic riding experience indoors. It's an innovative and stylish design that keeps us on the cutting edge of the indoor cycling industry – and it will keep your riders coming back time after time.
