

Our Services - How we can help you

Are you aged 25 or under?
Do you have a disability?
Do you have special educational needs?
(If you need extra help to learn things, then you might have special educational needs.)

If you said Yes, then Supportive Parents can give you information, advice and support about

- school, college or training
- health services
- care and support.

Most people who are 16 or older, and have finished Year 11, can make their own decisions about school or college, or about support.

They do not need any help.

But sometimes people find it hard.

A parent or carer can help you.
That is OK. It is up to you.

If you would like us to help, and you are under 16, we must talk to your parents or carers first.

Our service is impartial. That means we will not tell you what to do. We will not take sides.

We will give you information and support so you can make your own choices.

Our service is confidential. That means our meetings will be private. We will tell people what we talk about only if you say it is OK.

We will need to tell someone if we think you are in danger of being hurt.

If you are not happy with our support then please tell us how to make it better!
