

I give consent for my parent/carer to talk to Supportive Parents

√ Tick in the box if you agree.

I am happy for my: parent or carer
(Parent or carer's name).....

to talk to Supportive Parents about my education.

I understand Supportive Parents will help us understand educational issues.

I understand they will keep information about what is talked about on their computers.

They will keep this information private and I can see what they have written if I wish to.

I understand I can contact Supportive Parents if I am not happy with their help or if I no longer wish them to have my information.

I understand that everything I (and my parent or carer) talk about will be kept private unless I say it is okay to tell someone.

I understand that Supportive Parents have to tell someone if they are worried about safety (mine or someone else).

I prefer all contacts (emails or phone calls) to go to:

Me

My parent/carer
(you can tick both boxes)

The way I want you to contact me and my parent or carer:
