## Features

Whisper Quiet

Danfoss BD Compressor.

Low Power Consumption.

Low Voltage Battery Protection, to guard against full battery discharge.

Left or Right Door Opening.

Removable Door Panel.

Stainless Steel Hardware.

Designed for Mobile Applications on grades up to 30° angle .

Positive Latching System.

Multi Voltage Design 12, 24 VDC, 100-240 50-60 HzVAC.

## Options

- 1.All refrigerator (no freezer compartment)
- 2.Chine hugger (moves compressor up and out of the way)
- 3.Light
- 4.White or Stainless steel panels (standard is black)

**TWO DOOR REFRIGERATOR FREEZERS**

### Benefits

Can be installed in quiet areas, even in state rooms.

Swing on the hook longer.

Minimizes premature battery destruction.

Easy to configure to your space requirements.

Match your interior cabinetry.

Long life with little maintenance.

No special mounting required.

No surprising door openings, even in the most hostile conditions.

One unit fits most voltages around the world.

### Options

1. Optional flush mount kit on 6100 or 6500.
2. Optional chine hugger available on 6100 or 6500.
3. Optional Light in refrigerator.
4. White or Stainless steel panels (standard is black).

**FL & FM Plate kit** these two plates are designed so you can bend them to fit your application. FL Dimensions: 36 (914mm) x 15 (381mm) FM Dimension: 32 (813mm) x 11.5 (292mm)

The LT201 series of units and plates are designed with ease of installation built into each component. The refrigeration kits are simple by design, with less moving parts than most other refrigeration systems. Pick a cooling plate kit to fit your application, and add the compressorized cooling unit to complete the installation. All kits include a thermostat, and pre charged refrigeration lines, plus an assortment of mounting hardware. Just add power and let the cooling begin.

**Great for Freezers, Refrigerators and Fridge, Freezer box combinations**

**LT201 cooling unit**

12-24 vdc variable speed to match the load High capacity air cooled, designed for hot applications. No need for additional water pumps and relays. Standard pre charged line kit 12 ft (3.66M). Reusable couplings between cooling unit and plates.

All plate kits are available with the optional FLEX Line evaporators. If your installation is over stringers, around bulkhead, through cupboards (far from straight) Take a look at the line that can be flexed unlimitedly.
