

MARXCRAFT

MARXCRAFT
CUSTOM FINE FURNITURE

CONCEPT

MARXCRAFT understands that every one of us is an individual uniquely different. Carved, moulded and shaped by every nuance and experience to create the masterpiece that is only you. Likewise, we understand that you're not just looking for the generic, run-of-the-mill furniture. You want furniture that uplifts you and alludes to your individual personality. Just as it is functional, it also has to reflect your personal style. Its not just furniture to be replaced every season but a quality, timeless, extension of yourself to pass on to those you love in years to come.

MARXCRAFT's story began in Brisbane a decade ago with master craftsmen lovingly building exquisite and valued pieces of furniture for individuals wanting to voice themselves. Working closely with our clients, we design and hand make these special commissions. Special, because each piece is a mirror to one person's desire and dreams.

MARXCRAFT has over the years, extended our wings and earned an internationally recognised reputation for manufacturing luxury interiors for the Superyacht and Commercial sectors. But for us, transforming a piece of wood into something that will find its way to being cherished in someone's home will always be a passion close to our hearts.

FACTS

MARXCRAFT has been operating successfully from their purpose built 1000 square metre facility for the past 10 years. We have crafted a unique niche in the luxury furniture market with our talented and highly skilled team of technical and consultancy personnel. Supported by our well established database of valuable suppliers, we can source and guarantee any material, however complex or simple to suit each project, regardless of scale.

MARXCRAFT has the knowledge and experience to build with any material. We are pioneers in the area of using available materials, including carbon fibre, stainless steel, glass, veneers and exotic timbers etc. Our team of master craftsmen are highly skilled in traditional and contemporary styles. Combining superior technical knowledge with computer aided drafting tools and a well-established database of suppliers, **MARXCRAFT** can deliver an outstanding result in a timely manner.
