

MARXCRAFT

MARXCRAFT
CORPORATE INTERIORS

CONCEPT

MARXCRAFT has established an internationally recognised reputation and record for manufacturing exquisite interiors. Our success in constructing luxury interiors in the Superyacht industry and producing specially commissioned bespoke furniture paved our way into the specialist world of Corporate Interiors.

MARXCRAFT understands that the reputation and image of any successful business are the cornerstones to winning new customers. The Corporate Interior is the first thing a client sees when they enter your office and often regarded as a reflection of a company's value and style. A sophisticated and professional commercial fit-out naturally alludes to a sense of confidence, strength and success. **MARXCRAFT** has a demonstrated record in producing custom interiors for the residential and commercial sectors that embrace all these values. More importantly, an exceptional interior that resonates your core values.

MARXCRAFT has knowledge and experience in manufacturing interiors to any specification. Our team of craftsmen are highly skilled in traditional

and contemporary styles. Combining superior technical knowledge with computer aided drafting tools and a well-established database of suppliers, **MARXCRAFT** will deliver an outstanding result in a timely manner.

MARXCRAFT uses CNC machinery and its knowledge of acoustics, lighting, fire protection, plumbing, air conditioning and media systems to build completely integrated interiors to suit any project's scope. Building in this fashion results in dramatically compressed project time frames as the interior fabrication is well planned and runs concurrently with other construction works.

MARXCRAFT's installation protocol is developed to decrease onsite installation time and issues. This is achievable through detailed measurements on site or from plans and then translated through a stringent in-house prototyping phase beyond those standards in general interior construction. You can also rest assured knowing that our own fixing and installation systems are carried out by the same master craftsmen who studied the plans and constructed the finished pieces.

CASE STUDY

COMMONWEALTH BANK HEAD OFFICE, QUEEN ST MALL, BRISBANE (2010 – 2011)

MARXCRAFT was involved in the construction of a superb interior, with vast quantities of exquisite feature walls in the private, personal and business sections. State of the art materials in wall panelling, acoustic boards and luxurious finishes were used in completing a world class professional interior.

FACTS

MARXCRAFT has been operating successfully from their purpose built 1000 square metre facility for the past 10 years. **MARXCRAFT** has crafted a unique niche luxury interior market with its talented and highly skilled team of technical and consultancy personnel. Supported by our well established database of valuable suppliers, we can source any material, however complex or simple to suit each project, regardless of scale.
