

COMPANY PROFILE:

Marxcraft is an interior manufacturing business with experience in high quality production and custom furniture, luxury interior fit outs of hotels, yachts, offices and prestige homes.

The company's core manufacturing competencies include; cabinetmaking, CNC machining, spray finishing, upholstery, installation and working with an extensive range of materials. Professional services range from custom design of furniture and fittings to project management, logistical and procurement support.

- * **Established January 2001**
- * **Professional and dedicated team**
- * **1000 square metre facility**
- * **Established supplier base**

Marxcraft will partner with your business to supply a complete turnkey solution for your interior requirements or alternatively help with specific areas that are time sensitive or complex.

Our interior projects are broken into three fundamental areas:

- 1 Project Management:** scope, scheduling, design, prototype, approval for manufacture, communication and administration.
- 2 Manufacture:** procurement, production and furniture finishing.
- 3 Installation:** logistics, installation and handover.

Marxcraft combines these three services under one roof in a single consolidated professional service. We understand that our customers require a reliable, timely and accurate service with careful adherence to budget. To achieve this we embed quality controls in all facets of our method, thus ensuring quality outcomes.

Central to our approach is an understanding of our customer's needs and wants. Marxcraft establishes sound, open relationships with all our customers and our suppliers alike, working together to achieve the project's intent and meet budgetary constraints.

Marxcraft is a wholly owned and independent Australian company. Combining skilled labour, technology and modern business practices, Marxcraft represents a new direction in quality interior design, production and supply.
