The Astrologer's Work

Every spring the New York City Chapter of NCGR presents a special astrological presentation. This year's theme will address the work of the astrologer – to organize, synthesize and deliver the interpretation of the horoscope for the client.

Our guest speakers, Eileen McCabe, Greg Bogart and John Marchesella, will help to validate the work of the professional astrologer, and answer the student's age-old question, what really goes on in the reading?

All levels are welcome to this comprehensive presentation!

We are born at a given moment, in a given place and, like vintage years of wine, we have the qualities of the year and of the season of which we are born. Astrology does not lay claim to anything more.
