### *Maps*

Maps should always be made as concise as possible and should include an inset showing the location of the area discussed in relation to its home country or continent.

### *Photographs and Figures*

Please indicate on all figures the title and author of the manuscript to which they belong and package them carefully to avoid damage in the post. Figures will only be returned at the special request of the author. Electronic high resolution files (300 dpi) of maps, photographs and figures can be sent in any one of the following types of files: EPS, TIF, or JPG. Please, however supply a hard copy of all drawn maps or figures, preferably in the size in which they should be published.

We are always interested in receiving high quality photographs for our covers, especially images of little known and rarely photographed primates, even if they do not accompany an article.
