1) Austria

Chapter 1: The UK and Austrian Presidencies presented the attached joint report to the European Council in December 2005 summarising national debates on the future of Europe in the Member States. The Presidencies' report focused on activities by governments. The aim of Chapter 1 of the 5th biannual report is to add to this report by providing an overview of actions taken by national parliaments during the period of reflection.

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

- On 19 December 2005 a meeting with about 200 pupils was organised in the Austrian parliament which gave them the opportunity to ask EU-related questions which were answered by members of the Conference of Presidents of the European Parliament as well as the EU-State Secretary in the Austrian government. This meeting was broadcast live by the Austrian Broadcasting Corporation.

- With the view to offer the public more information, the Rules of Procedure of the National Council have allowed for regular special plenary meetings to discuss EU issues since mid-2005 in which the working programmes of the EU Presidency and other topical EU projects are dealt with. Reports by the EU-Main Committee can also be placed on the agenda of such meetings. Information dossiers for MPs, which serve as a basis for discussion, are provided in preparation for the meetings by the new EU Coordination Department. As an additional support for MPs, a permanent representation of the Austrian parliament was set up in Brussels in May 2005 to facilitate and speed up the flow of information.

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

- On 18 and 19 April 2006 a conference on subsidiarity will be held in St. Pölten; part of the conference will be dedicated to the national parliaments role in scrutinising subsidiarity. The Austrian parliament is co-organising this conference.

- The Austrian parliament together with the European Parliament is organising a Joint Parliamentary Meeting on the Future of Europe on 8 and 9 May 2006.
Chapter 2: In the 4th biannual report, we reported that 18 national parliaments or parliamentary chambers (from 14 Members States) already scrutinised EU legislation for compliance with the principles of subsidiarity and proportionality. A further 6 national parliaments reported that although they did not yet perform such scrutiny, they might do so in the future. Chapter 2 of the 5th biannual report will report on any developments relating to subsidiarity and proportionality since October 2005.

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

No

Chapter 3: Background: The 4th biannual report showed that Civilian ESDP missions are an area where there is rapid growth in the level of EU activities. This has been emphasised by the fact that since the questionnaire for the 4th biannual report was sent out, 6 more operations have been agreed by the Council.

1) On 18 July 2005, the Council agreed Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur region of Sudan (AMIS II) (AMIS EU supporting action). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

The matter was discussed by the National Council’s Main Committee on 13 December 2005; on the Austrian Minister for Foreign Affair’s request the committee agreed on sending 5 members of the Federal Army to Darfur until the end of 2006.

2) On 9 September 2005, the Council agreed Joint Action 2005/643/CFSP establishing the EU’s Aceh monitoring mission (Indonesia). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

The matter was discussed by the National Council’s Main Committee on 7 September 2005; on the Austrian Minister for Foreign Affair’s request the committee agreed to take part in the EU mission in Indonesia and to send members of the Federal Army to Aceh.

3) On 7 November 2005, the Council agreed Joint Action 2005/776/CFSP establishing an EU border assistance mission to Moldova and Ukraine. Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

The matter has not been dealt with by our parliament.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

The matter was discussed by the National Council’s Main Committee on 13 December 2005; on the Austrian Minister for Foreign Affairs’s request the committee agreed on sending 2 criminal law experts and 2 executive officers to the Palestinian territories.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Le chapitre 2 du 5ème rapport biannuel sera consacré à tous les développements en matière de subsidiarité et de proportionnalité depuis octobre 2005.

QUESTIONS FOR THE 5TH BIANNUAL REPORT

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005) ?

The Danish Parliament has initiated several initiatives during the period of reflection.

In January 2006 the Parliament opened a website dedicated to the Danish debate on the Future of Europe – www.citizensagenda.dk. The website is the central point of reference for the initiatives during the period of reflection, and contain an overview of public meetings to be held in Denmark and a web based forum for debate. Furthermore information and feedback from the public debate is collected on the site.

On April 29.-30 the Parliament is organising a nationally televised hearing on the future of EU. Approximately 400 participants will be chosen as a representative sample of the Danish voting population on the basis of a major opinion poll regarding their attitude to European policy issues. The participants will be personally invited to take part without receiving remuneration, but also without expenses. The participants will meet and discuss EU-matters. Most of the work will be carried out in groups that will be led by an experienced chairman to ensure that everybody will be able to express their opinion. Leading politicians and well-known experts will be invited to take part in panel debates with the participants. In addition, parties and movements will be allotted rooms in connection with the hearing where representatives will have the opportunity to follow and comment on the hearing and participants can contact them if they would like to discuss certain matters. The hearing is arranged in collaboration with a major TV channel that will help to spread the debate among the public with the help of comprehensive coverage of the arrangement itself. There will be a number of PR and communication initiatives in order to bring knowledge of the hearing and the discussions that take place there into a number of media and maintain them in the minds of the public for a considerably longer time than the weekend that the hearing will last. Among other things, participants will express their attitudes to the subject debated by filling in questionnaires and also evaluating the various aspects of the Public Hearing. The forms will reveal any attitudes that actually have broad support and also the disagreements that will be central during the coming years. The results of the Public Hearing will be included in the report that the European Affairs Committee will hand over to the Prime Minister before the meeting of the European Council in June 2006.

In February 2006, a nation-wide competition was arranged for students attending courses of youth education at upper secondary schools, higher preparatory courses, business schools, technical schools, etc. Classes was invited to send in proposals for three of the five questions that are identified as central for the Danish Debate during the period of reflection. It will be possible to read all contributions to the EU Youth
Parliament at [www.borgernesdagsorden.dk](http://www.borgernesdagsorden.dk) as they are received, and they will later be published as a whole in the middle of May 2006. A brief summary of all contributions will be prepared for inclusion in the report of the European Affairs Committee to the Prime Minister in time for the meeting of the European Council in June 2006. During May and June 27 classes will be invited to take part in an EU Youth Parliament as such at Christiansborg on 27 September 2006.

Furthermore the Parliament has arranged a number of specialised conferences on various subjects such as comitology and the role of the European Court of Justice.

In May and June the Parliament will organise a public exhibition of material from the six Danish Referendums on EU-matters.

9) French Assemblée Nationale

REPONSES DE L’ASSEMBLEE NATIONALE FRANCAISE

Chapitre 1 :

1) Quelles initiatives en rapport avec la période de réflexion sur le futur de l’Europe et/ou le plan D de la Commission (COM (2005) 494, 13 Octobre 2005) votre Parlement a-t-il pris ?

Dans le cadre de la période de réflexion et du débat sur l’avenir de l’Europe, l’Assemblée nationale prend une part active à la sensibilisation des députés aux sujets européens et associe régulièrement les citoyens à la réflexion sur l’Europe, dans un esprit de démocratie, de dialogue et de débat.

Plusieurs initiatives récentes permettent également de renforcer sensiblement la dimension européenne du travail parlementaire :

- Le Président de la Commission européenne, M. José-Manuel Barroso, a été reçu dans l’hémicycle le 24 janvier 2006 ;
- Depuis janvier 2003, les quatre premières questions d’actualité du premier mercredi de chaque mois sont consacrées à des thèmes européens ;
- Un débat en séance publique est désormais systématiquement organisé avant chaque réunion du Conseil européen ;
- Une lettre européenne d’information, élaborée par le Président de la Délégation pour l’Union européenne, est diffusée chaque trimestre à l’ensemble des députés. Elle offre un éclairage sur les principaux dossiers européens (budget européen, stratégie de Lisbonne…), permet de suivre les activités des institutions de l’Union et rend compte des travaux de l’Assemblée nationale sur des thèmes européens ;
- Un rapport transversal sur la transposition des directives est publié chaque année par la délégation de l’Assemblée nationale pour l’Union européenne ;
- Une nouvelle rubrique « Union européenne » du site Internet de l’Assemblée nationale vient d’être inaugurée. Elle permet un accès direct et complet à l’ensemble des activités d’information et de contrôle parlementaire sur les affaires européennes.

Une large place est laissée au débat citoyen puisque les internautes sont invités à s’exprimer sur l’Europe en répondant à un questionnaire interactif intitulé « Quelle Europe voulez-vous ? ». Des députés de la Délégation pour l’Union européenne ont également directement diffusé ce questionnaire dans leur circonscription ;

- La lettre électronique mensuelle de la Délégation pour l’Union européenne
La Délégation pour l’Union européenne diffuse tous les mois depuis février 2006, une lettre électronique d’information qui se substitue à la « Sélection de documents européens » et propose un contenu enrichi et simple d’accès. Des rubriques thématiques (réunions de la Délégation, auditions, rencontres interparlementaires, conclusions et résolutions portant sur des textes européens, nouveautés sur le site Internet, chroniques de jurisprudence européenne, etc.) permettent un accès rapide et complet à l’intégralité des travaux de la Délégation pour l’Union européenne. Désormais, les destinataires de la lettre électronique ont également la possibilité d’être informés des travaux et de la position de la Délégation sur chacun des « documents E » soumis à l’Assemblée nationale en application de l’article 88-4 de la Constitution grâce à la mise en ligne d’une fiche spécifique pour chaque document examiné ;

- L’Assemblée nationale dispose également depuis trois ans, à Bruxelles, d’un **Bureau de représentation permanente auprès de l’Union européenne**, dont l’objectif principal est de renforcer l’information des parlementaires sur l’activité des institutions de l’Union, de les sensibiliser à l’Europe dans le cadre de session de formation aux questions européennes et de favoriser la coopération interparlementaire.

Des initiatives gouvernementales ont également été prises pour renforcer l’association du Parlement français aux questions européennes

- Des **sessions de sensibilisation** aux problématiques européennes sont désormais régulièrement proposées aux parlementaires nationaux, qui permettent à ces derniers de développer leur connaissance et leurs liens avec les Institutions européennes. La première session s’est tenue à Bruxelles les 28 et 29 novembre et la seconde les 30 et 31 janvier. La troisième aura lieu à Strasbourg les 15 et 16 mars 2006 ;

- Une **circulaire du Premier ministre du 22 novembre 2005** a étendu le champ des actes européens sur lesquels les Assemblées pourront adopter des résolutions, conformément à l'article 88-4 de la Constitution ;

2) Y a-t-il d'autres activités prévues d'ici la fin de la période de réflexion ?

11) German Bundesrat

Committee on questions of the European Union
- Office -

Answers to the questionnaire on the 5th Biannual Report

Chapter 1

(1) The Bundesrat discussed the Commission Communication “Plan D for Democracy, Dialogue and Debate” and came to the conclusion that it contains good and apt points of reference on how European public relations work should be shaped in future. However, it also expressed its expectation that the Commission will implement its communications strategy together with countries and regions in a spirit of partnership and that it will simplify procedures. It also stressed that enhanced information and public relations work alone will not suffice to create greater acceptance of European integration among citizens. First and foremost, this required a resolute reform policy which takes citizens’ concerns seriously.

(2) European PR work and debates on European policy are scheduled to take place in the German Länder during Europe Week. This year’s Europe Week will take place in all Länder from 5 to 14 May 2006. It will be organized in close cooperation with the Federal Government, the Commission and the European Parliament. Alongside the main European policy issues, the focus will be on the European Constitutional Treaty and reform of the European Union. Numerous members of the Bundesrat will be discussing these topics with citizens at a wide variety of events and campaigning for greater acceptance.

Chapter 2

Since October 2005, there have been no changes to the Bundesrat procedure for scrutinizing the principles of subsidiarity and proportionality.

Chapter 3

The Act on Cooperation between the Federation and the Länder in Matters concerning the European Union does not apply to the Common Foreign and Security Policy of the European Union. The Bundesrat has therefore not scrutinized any of the six new missions.
12) German Bundestag

QUESTIONS FOR THE 5TH BIANNUAL REPORT

With Answers from the Secretariat of the Committee on the Affairs of the European Union of the German Bundestag

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

Due to the general elections in September 2005 and the proceedings to re-constitute the German Bundestag in its 16th legislature, which were finalized by 30 November 2005, no special initiatives have yet been undertaken in this regard.

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

The Bundestag has decided to seize the opportunity of the football World Championship in Germany (7 June – 9 July 2006) to enhance its public visibility in Berlin. A special visitor centre will inform about the work and functioning of the Bundestag. The Committee on the Affairs of the European Union is planning to participate in this initiative in order to inform visitors and tourists about topical issues of European integration. In addition, the Committee has decided to open as many of its upcoming sessions as possible to the public, thereby fostering visibility and transparency of the parliamentary debate on European issues.

In addition, the President of the German Bundestag has invited the President of the European Commission to a forum with high-ranking representatives of the Bundestag and other interested Members in order to discuss topical issues of the European Union like the role of national parliaments within the European integration, the European constitutional process and the repercussions of the Lisbon-Agenda on national legislation.

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?
New legislation has recently entered into force that was designed primarily to implement the new procedures regarding the “early warning mechanism” on subsidiarity and proportionality as foreseen in the Constitutional Treaty. The majority of the new provisions will enter into force only when and if the Constitutional Treaty itself will enter into force.

However, the new legislation provides the legal basis for a new memorandum of understanding between the Federal Government and the Bundestag concerning information and co-operation in Affairs of the European Union. This provision has entered into force on 18 November 2005.

The negotiations on this memorandum are expected to begin this month. It should provide for more extensive information of the parliament and improve the ways of co-operation between the parliament and the government. In this way, it will enhance the Bundestag´s capacities to scrutinise EU-legislation on the principles of subsidiarity and proportionality as well as on the merits.

Chapter 3: Background: The 4th biannual report showed that Civilian ESDP missions are an area where there is rapid growth in the level of EU activities. This has been emphasised by the fact that since the questionnaire for the 4th biannual report was sent out, 6 more operations have been agreed by the Council.

1) On 18 July 2005, the Council agreed Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur region of Sudan (AMIS II) (AMIS EU supporting action). Did your parliament scrutinise this mission? If ‘yes’, please specify when this scrutiny took place.

2) On 9 September 2005, the Council agreed Joint Action 2005/643/CFSP establishing the EU's Aceh monitoring mission (Indonesia). Did your parliament scrutinise this mission? If ‘yes’, please specify when this scrutiny took place.

3) On 7 November 2005, the Council agreed Joint Action 2005/776/CFSP establishing an EU border assistance mission to Moldova and Ukraine. Did your parliament scrutinise this mission? If ‘yes’, please specify when this scrutiny took place.

4) On 14 November 2005, the Council agreed Joint Action 2005/797/CFSP establishing an EU police mission in the Palestinian territories (EU POL COPPS). Did your parliament scrutinise this mission? If ‘yes’, please specify when this scrutiny took place.
Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

In all of the six cases cited above, the German Bundestag was informed about the relevant mission through a letter by the Federal Minister of Foreign Affairs to the President of the Bundestag. This letter contained details on the nature, task and dimension of the mission in question. They were forwarded to the Committee on Foreign Affairs and the Committee on the Affairs of the European Union for information. The letters concerning the missions referred to in question No. 4, 5 and 6 were also sent to the Defence Committee, the Committee for Internal Affairs, the Budget Committee, the Committee for Human Rights and Humanitarian Aid and the Committee for Economic Co-operation and Development.

A formal parliamentary scrutiny has not taken place in any of these cases, because the missions did not involve the deployment of armed troops. According to the relevant federal legislation, parliamentary assent to the deployment of personnel is necessary only where the government considers sending armed military troops. Troops carrying weapons for purposes of self-defence only are not considered to be armed ("Gesetz über die parlamentarische Beteiligung bei der Entscheidung über den Einsatz bewaffneter Streitkräfte im Ausland" of 18 March 2005).
Chapter 1

The Committee for European Affairs of the Hellenic Parliament held a meeting concerning the period of reflection on December 2005 and is considering further meetings as a follow up of the Interparliamentary Conference on the Future of Europe (8 and 9 May).

Chapter 2

There has not been any development relating to scrutiny of subsidiarity and proportionality in the Hellenic Parliament.

Chapter 3

None of the mentioned operations has been scrutinized, in the context of discussions held at the Committee for Defence and Foreign Affairs.

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

The Italian Senate focused specially on the debate that took place during the scrutiny of the Commission’s Legislative Working Programme by the Committee on EU policies. The debate was an occasion to give a strong indication to the Government political action and to raise awareness among Senators about European issues. Furthermore, it aimed at presenting to other EU parliaments the position of Italy regarding this stage of the period of reflection. The scrutiny was carried out jointly on the Commission's Legislative Working Programme and the Operational programme of the Council for 2006, started on 13th December and ended on 26 January, when a resolution was unanimously passed.

The resolution highlighted the position of the Committee on EU policies on the major European matters, in particular on the future of Europe. In particular, the resolution engaged the Government to adopt any useful initiative in order to resume the ratification process of the Constitutional Treaty and, at this purpose, asked it to encourage the debate on the Commission's “Plan-D for Democracy, Dialogue and Debate”. The Government has been engaged also to assess which initiatives should be adopted in order to strengthen the international dimension and the policies of the Union, also through strengthened cooperations.

The European Affairs committee is organizing a conference on the Future of Europe in cooperation with the European Commission Representation in Latvia, which will take place on 22 May, 2006. The participants will include, among others, the President of the Commission Mr Barrozu, vice-president Mrs Wallstroem and commissioner Mr Piebalgs, as well as our government representatives, NGOs, media etc. The conference will mainly focus on communication issues and on Latvia's integration processes into the EU.

The Saeima is traditionally contributing to the activities organized in the framework of Europe's yearly week during the first week of May.

The EU Information centre of the Parliament of Latvia steadily and ongoingly informs society at large on a wide range of European issues. The Centre has a special section in their webpage on constitutional issues, as well as number of fact-sheets.

It will also organize a meeting of the already established network of specialized EU information centres from the Baltic sea area from 14 to 16 June, 2006.

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

There has not been any further development regarding the plans to further improve our mechanisms for scrutiny of proportionality and subsidiarity in our Parliament since October 2005. Most probably it will happen only after the next parliamentary elections this autumn.

Nevertheless, our parliament is ready to submit to the subsidiarity check of the Commission legislative proposals, as selected at the COSAC chairpersons meeting in Vienna in February, 2006.

Chapter 3: Background: The 4th biannual report showed that Civilian ESDP missions are an area where there is rapid growth in the level of EU activities. European Affairs Committee approves all national positions for the GAERC, including those where the Latvian position on the EU ESDP mission has been postponed. As the Committee does not scrutinize separately each particular mission, but the national position on the whole, it is not possible to specify adoption time of above-mentioned missions.
19) Lithuania

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

The Seimas of the Republic of Lithuania established the Working Group on the Future of Europe and Plan D in November 2005 to coordinate Seimas initiatives on the reflection period. Preparation for the Parliament’s activity in this field has been gradually evolving since Spring 2006. A number of initiatives are currently being developed, including open debates organised by parliamentary committees on a range of EU future related subjects. It has been decided to use an established framework for thematic debates. Most of the events are concentrated in April and early May and called the April Debates on the Future of Europe.

The April Debates on the Future of Europe will be followed by the plenary debate on 2nd May, when the Parliament looks at Lithuania’s two-year experience of EU membership and, possibly, outlines its activities in the second phase of the reflection period.

The European Affairs Committee of the Seimas in cooperation with the representatives of various Youth organisations from all over Lithuania has taken an initiative to organise the Youth Conference on the Future of Europe, which would draw on the experience of the Youth Convention and, possibly, develop its activities with further evolvement of the reflection period.

The Seimas together with the Government of the Republic of Lithuania and the Representation of the European Commission in Lithuania has initiated the essay contest “My Opinion for Lithuania and Europe”, which invites all Lithuanian citizens, those who wish to participate, to give their opinion on various aspects of the future of European integration.

The Seimas, the Government of the Republic of Lithuania and the Representation of the European Commission in Lithuania will organise a social action “60 minutes with Europe” with broad participation of regional radio and television stations.

Another important activity is meetings of the Members of the Seimas with the Europe direct network in order to facilitate promotion of the European debate.

Finally, it has become a tradition for the Seimas to organise some social events – “Planting of the European Forest” and the bicycle ride to the “geographical centre of Europe”, which attract public attention.

23) Netherlands Senate (Eerste Kamer)

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

The Dutch Senate has already undertaken several successful initiatives in connection with the reflection period/Plan “D”. A few examples:

- A public hearing on the ‘Future of (The Netherlands in) the European Union” with employees and employers, journalists, former politicians and representatives of learning institutes
- The Senate has asked the civil society, different organisations and institutes to give their opinion on the Legislative and Working program of the European Commission 2006
- The Senate made an appeal to all citizens through the European website of the Senate (www.europapoort.nl) to give their remarks and opinions on European proposals as well as the Senate’s activities in the field of the EU.
- The Senate thoroughly discussed the EU future with the Dutch government in the annual debate on the European Union
- The initiative presented to and adopted by the COSAC to request the Council to deliberate in public on certain proposals
- The request to the Dutch Council of State: advisory body and administrative court to report on the increase of European agencies, specifically on the criteria to establish agencies and the democratic control
- Annual discussion with the national Court of Auditors on the European financial management and the follow-up on the conclusions of the COSAC Luxembourg.
- More often press releases are being sent out with regard to European activities/issues to involve and get more coverage in the Dutch media
- The Senate has just recently asked the Dutch Government on her actual plans to contribute to implementing the European Commission’s White Paper on a European Communication Policy.

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

Yes.

- The committee for European Cooperation Organisations will in the upcoming committee-meeting discuss possible initiatives to contribute to the reflection period.
- Depending on the answer of the Dutch government in reply to the committee’s request for the government plans to implement the White Paper, the committee will decide on possible new initiatives.
Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

The temporary committee for scrutiny of subsidiarity and proportionality (of both the Senate and the House of Representatives) has been disbanded since its reports on a new States-General procedure for scrutinizing European proposals have been adopted by both the House of Representatives and the Senate. At this moment the instalment of a new joint committee to actually carry out the scrutiny (of also the proposals decided upon during the Vienna chairpersons meeting) is being discussed. The foreseen date for the official instalment is around the beginning of April.

The scrutiny procedure in the Dutch Senate is also improving.
- Specifically the involvement of the select committees in the Senate is slowly increasing. More often a European proposal that has been brought under the attention of a select committee by the committee for European Cooperation Organisations is given a follow-up by the select committee.
- Normally, a European proposal is scrutinised by the Senate when the Dutch government has sent her opinion with regard to the proposal to the Senate. The last months, several European proposals became subject to the Senate’s scrutiny procedure when the government’s opinion was not yet received. This trend is in conformity with the opinion that earlier involvement is absolutely necessary in order to really influence the wording of a proposal.

Chapter 3:

The Dutch Senate does not scrutinize Civilian ESDP missions (unless they are subject to a so-called Article 100 of the Dutch Constitution procedure whereby consent of the Senate is obliged, the missions mentioned were not subject to this procedure). However, the Senate discusses these matters with the government in an annual debate on the Defence budget and Foreign Affairs budget.

26) Portugal

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

In the eve of the European Council of July 2005, the Portuguese Government sent the Constitutional Treaty to the Parliament in order to be approved and sent to the President of the Republic to ratification, as states our Constitution.

On the 30th of July, the Portuguese Parliament approved an amendment to the Constitution, so that the text of the Treaty could be subject to referendum. The referendum was announced to be held in October, at the same time as the local elections. However, due to the reflexion period, it was decided to suspend all the predicted procedures.

The Parliament decided to postpone the Treaty’s approval process and launch several initiatives to debate the future of the EU.

Since September, the EAC has organised/hosted:
- 13 EAC ordinary meetings on this subject;
- 3 meetings with the Secretary of State of the European Affairs;
- 1 meeting with the Foreign Affairs Minister;
- 1 meeting with a delegation of the European Parliament AFCO;
- 1 meeting with a delegation of the French National Assembly;
- 1 meeting with the Chargé d’Affaires of the Austrian Embassy in Lisbon;
- 1 meeting with the regional legislative assemblies (Azores and Madeira), the MEPs and the Secretary of State of the European Affairs.

The Parliamentary monthly debate with the PM, of last December 20th, was dedicated to European issues.

Last January the Portuguese Parliament also organised, in co-operation with the F Department of the European Parliament, a Seminar integrated in the “Cox Programme”. One of the debates was exactly about the period of reflection on the future of Europe.

Moreover, the EAC decided – last December – to ask for the opinion of 151 organisations of the civil society, academics and social partners, as well as of the other parliamentary standing committees on the Constitutional treaty, the ratification process and the future of Europe. The EAC invited these entities to send their contribution to the debate and to fulfil a questionnaire on these subjects. Related to this initiative, the EAC is designing a web site dedicated to the debate on the future of Europe. This web site will be launched during a public hearing with those 151 organisations, which will be organised by the EAC on the 2nd of May. The conclusions of the received contributions and questionnaires will be presented and debated at this public hearing.
Please find herewith the conclusions of our request to the staff of the EACs of the 25 national Parliaments, asking what the EACs were planning to do during the period of reflection (Annexe 1).

The Portuguese EAC nominated three Rapporteurs to elaborate a report (until next June) on the ratification process of the Constitutional Treaty and the future of Europe: MP Armando França (PS), MP Vitalino Canas (PS) and MP Mário David (PSD).

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

See answer to question 1).

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

The EAC selected 6 proposals of the European Commission’s Legislative and Working Programme for 2006 to scrutinise (Annexe 2).

Chapter 3:

1) On 18 July 2005, the Council agreed Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur region of Sudan (AMIS II) (AMIS EU supporting action). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Regarding the above mentioned questions:

I. Considering our Law n.º 46/2003, of 22nd of August (Annexe 3), the Portuguese Parliament reviews the participation of Portuguese contingents abroad, through the parliamentary Committee on National Defence:
- Government previously informs the Parliament on the decision of involving Portuguese contingency abroad (article 3.º/1);
- Government will present a circumstantial semester report to Parliament as well as occasional or urgent information that may be requested (article 5.º/1);
- At the end of the mission, Government has 60 days to present the final report (article 5.º/2).

II. The rules of procedures and the competences of the parliamentary Committee on National Defence (article 3.º/c) states that the Committee:

Reviews the participation of Portuguese contingents abroad under the National Defence Ministry authority, namely when it derives from the international compromises undertaken by the Portuguese state within the military scope or in the context of the participation of the Armed Forces in humanitarian and peace keeping missions led by international organisations of which Portugal is member;

III. The Committee on National Defence organizes hearings with the National Defence Ministry (since the beginning of this legislature - March 2005 - the Committee has organised five of these meetings (10.05.2005, 28.06.2005, 27.07.2005, 20.09.2005 and 14.02.2006) where it is possible to gather information about that participation.

IV. Moreover, during every Legislature the Committee on National Defence visits the Chief of Defence (CHOD) and receives briefings from the Armed Forces and from the CHOD. In these occasions, they change information on the number of militaries involved in each mission and future perspectives of that participation. In the current Legislature, the briefing with the CHOD took place on the 18.05.2005 and the Committee visited the three Armed Forces on the 24.05.2005, 07.06.2005 and 21.06.2005. The Committee also visited the Joint Operations Centre on the 07.02.2005 and will pay a visit to the three Operational Command Branches, after the 3rd week of March.

V. A delegation of the Committee visited (from 2 to 5 of March) the Portuguese troops in Kosovo and in Bosnia-Herzegovina.
27) Slovakia

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

Parliamentarian activities supplement the Slovak government-run communication strategy on the European issues. The National Council understands the synergic effect of cooperation with other bodies active in the field, thus the primary partners when communicating Europe are Slovak government, Representation of the European Union and Information Office of the European Parliaments.

The Slovak Parliament is in the process of finalising a web site which will serve as an opinion exchange forum on the current EU questions. Alongside with the information on the EU there will be an interactive forum. The political parties represented in the Slovak Parliament, MPs, leading opinion makers and non-governmental organisation will be able to express their opinions towards the questions as put forward in the European Parliament resolution on the period of reflection: *the structure, subjects and context for an assessment of the debate on the European Union* passed in January 2006.

1. on what is the goal of European integration?
2. what role should Europe have in the world?
3. in the light of globalisation, what is the future of the European social and economic model?
4. how do we define the boundaries of the European Union?
5. how do we enhance freedom, security and justice?

The compact web forum will allow citizens to react to the published opinions. Blogs will be available chronologically as they are sent. This interactive site will make it possible for citizens to send their opinions to the concrete articles and politicians to react to the concrete topics.

The web forum will be advertised as to reach as wide public as possible. It is important that the forum becomes an interactive, often visited web site that will provide an important feedback on moods of inhabitants about the EU. Its task is not to substitute other web pages offering information on the EU, rather supplement the wide scale of information by the opinion of the National Council on the EU agenda, its relations with the EU institutions and views on European issues.

After the first phase of the web site being in use, the communication policy will be assessed. The evaluation is expected at the time of the newly elected National Council members taking over their duties. Eventual discussion round table of politicians and representatives of involved NGOs can be organised. The most interesting, concise and consistent articles can be published in a collection.
Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

There have not been any developments relating to the scrutiny of subsidiarity and proportionality in the National Council since October 2005. But although the National Council does not currently perform the scrutiny of subsidiarity and proportionality, it may do so in the future.

We can also mention that the Chancellery of the National Council plans to establish a special working group on subsidiarity and proportionality composed of civil servants (legal experts) coming from within the Chancellery. This working group will prepare possible scrutiny of subsidiarity and proportionality in the National Council.

Chapter 3

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

No Foreign Affairs Minister hearing by the Slovak Parliament European Affairs Committee was held before the 18 July 2005 GAERC meeting. On that account no scrutiny relating to Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur region of Sudan (AMIS II) was held.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Given the fact that Joint Action 2005/643/CFSP establishing the EU Aceh monitoring mission was adopted on 9 September 2005 by the Council on the basis of special arrangements (the written procedure), the European Affairs Committee did not scrutinise the civilian ESDP mission in question. European Affairs Committee of the Slovak Parliament (in accordance with our previous practice described in the Questionnaire for the 4th COSAC biannual report) continues to scrutinise ESDP policy proposals complexly, i.e. if they are put on the GAERC agenda. If so is done, Minister of Foreign Affairs will brief MPs also on the ESDP dossier and will seek for the MPs’’ approval concerning the ministry position related with the concerned GAERC agenda.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.
The European Affairs Committee session dealing with the scrutiny of the Ministry of Foreign Affairs draft position concerning the 7 November 2005 GAERC took place on 3 November 2005. Minister of Foreign Affairs reported on each point on the GAERC agenda including this one.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.
Minister of Foreign Affairs in his discussion with the MPs of the European Affairs Committee dealt with the joint action in question at the 3 November session of the European Affairs Committee (at the same session he was seeking for the approval of his ministry draft position concerning the 7 November 2005 GAERC session). However, though our committee decided not to have the Minister of Foreign Affairs reporting on the 21 November 2005 GAERC agenda (whereby the minister obtained the 'implicit' approval for the ministry position concerning the session in question), Ministry for Foreign Affairs did deliver the position concerning this GAERC session in writing. This position does specify the Slovak Republic’s proposed contribution to the concerned joint action.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.
Joint Action 2005/826/CFSP establishing an EU police advisory team in the Former Yugoslav Republic of Macedonia (EUPAT) was agreed by the ECOFIN Council on 24 November 2005. Minister of Finance was received by the European Affairs Committee to seek for the MPs’ approval concerning the draft position of the Ministry of Finance, however, he did not deal with the joint action in question. Minister for Foreign Affairs did not accompany Minister of Finance to tackle this joint action during the hearing concerning ECOFIN 24 November 2005 meeting.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.
The scrutiny of Joint Action 2005/889/CFSP establishing an EU border assistance mission at Rafah crossing point in the Palestinian territories (EU BAM Rafah) is very similar to the scrutiny of Joint Action 2005/643/CFSP establishing the EU Aceh monitoring mission. There was none since the joint action in question was adopted through the written procedure and European Affairs Committee focuses on the scrutiny of draft positions submitted to the Slovak Parliament within the context of GAERC meetings. (It must be however stressed that MPs of the European Affairs Committee were briefed on some aspects of the concerned joint action since Ministry
of Foreign Affairs provided the committee with the draft position in writing before 21
November GAERC meeting. This draft position, which was forwarded to MPs by
electronic form, tackled the EU decision to launch shortly, as a matter of urgency, an
ESDP mission to monitor the operations of the Rafah border crossing point.)
Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

The Committee on EU Affairs of the National Assembly is mainly involved in organizing the activities of the National Assembly, Republic of Slovenia, during the period of reflection.

Already in 2005 (that is, before the Commission's Plan D), our main activities of communicating EU Affairs to the general public included:

- **The Spring Day in Europe** - a youth meeting in the National Assembly on 13 April 2005 on "European Constitution"
- **The European Week** (from 10 May - 13 May 2005), with a series of public hearings on the following topics: Constitutional Treaty, the Lisbon Strategy and the Cohesion Policy
- **An exchange of views** with the Slovenian MEPs on the future of Europe (June 2005)

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

In its working plan for 2006 and in the framework of the Commission Plan D, the Committee on EU Affairs of the National Assembly, Republic of Slovenia, intends to cooperate with other competent bodies of the National Assembly, with Members of the European Parliament from Slovenia, with the European Commission, the local authorities, and the civil society. Different approaches will be necessary, considering the different interests of our counterparts.

In this regard, the Committee plans to organize the following activities:

- **The Spring Day in Europe** - a youth meeting in the National Assembly on 24 March 2006, entitled: "Let's talk about our future".

- **The European Week** in the National Assembly - public hearings, organized **between 9 and 12 May 2006**, concerning the priority topics of the Austrian EU Presidency and other topical issues

- **Cooperation with municipalities** in presenting EU activities to the public - the Committee intends to cooperate with the municipalities (mostly through the Association of Municipalities of Slovenia, the Association of Municipality and Towns of Slovenia, and the Committee of the Regions), in order to inform the citizens of EU affairs and involve them in the discussion of EU-related topics
• **Enhanced cooperation with the competent working bodies of the National Assembly** - in 2006 the Committee will organise monthly, public joint meetings to discuss topical EU issues. The position of the Government will be presented by the relevant minister.

• **Cooperation with Members of the European Parliament from Slovenia** - joint meetings of members of the Committee on EU Affairs and MEPs from Slovenia to exchange views, opinions and information on the current state of affairs in the EU. The meetings will be held every three months, expectedly in June, September, and December 2006.

• **Cooperation with the European Commission** - in 2006, a special item on the agenda of Committee meetings will be reserved for a representative of the European Commission (Commissioner or Head of the EC delegation in Slovenia) to present the views of the Commission. This year, the National Assembly already hosted the president of the EU Commission Mr José Manuel Barroso, the EU Commissioner for Institutional Relations and Communication Strategy, Ms Margot Wallström, the EU Commissioner for Science and Research Dr Janez Potočnik, the EU Commissioner for Transport Mr Jacques Barrot, the EU Commissioner for Enlargement Olli Rehn and the EU Commissioner for Economic and Monetary Affairs, Mr Joaquín Almunia.

**Chapter 2:**

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

The National Assembly held the discussion on the Commission's Legislative and Work Programme for 2006 on 14 December 2005. The document was examined and debated by the competent working bodies: the Committee on EU Affairs and the Committee on Foreign Policy at the joint open session. The Commission's Programme was presented by Dr. Janez Potočnik, Commissioner for Science and Research, and Mrs. Mihaela Zupančič, Head of the EC Delegation to Slovenia.

The two competent committees held a thorough debate on the programme and emphasized certain topical issues in the programme, laying no particular emphasis on specific legislative proposals of the European Commission as to their possible non-compliance with the principles of subsidiarity and proportionality.

In the COSAC Chairpersons and Troika Meeting in Vienna (19-20 February, 2006) however, the Committee on EU Affairs of The National Assembly, Republic of Slovenia, agreed together with the others on the proposed two legislative proposals that the parliaments can perform subsidiarity check on.

**Chapter 3:**

1) On 18 July 2005, the Council agreed Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur
region of Sudan (AMIS II) (AMIS EU supporting action).
Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Yes, the Committee on Foreign Policy (which has the power of adopting the positions of the Republic of Slovenia in the field of CFSP as well as ESDP) discussed the issue on its meeting on May 20, 2005.

2) On 9 September 2005, the Council agreed Joint Action 2005/643/CFSP establishing the EU's Aceh monitoring mission (Indonesia).
Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.
No.

3) On 7 November 2005, the Council agreed Joint Action 2005/776/CFSP establishing an EU border assistance mission to Moldova and Ukraine.

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005) ?

The Joint EU Committee is about to create a Working Group which is expected to start its proceedings very soon in order to draft a report on proposals in relation to the future of Europe.

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

At the present moment, no further initiatives, apart from the abovementioned Working Group on the future of Europe, have been planned on the subject.

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

A Working Group on the Early Warning System included in the Protocol on Subsidiarity has been created by the Joint EU Committee. This Working Group will conduct a series of hearings starting on March 30th, in order to eventually draft a report on the scrutiny of subsidiarity and proportionality.

Chapter 3:

1) On 18 July 2005, the Council agreed Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur region of Sudan (AMIS II) (AMIS EU supporting action). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Chapter 1

1) - Debate in the Chamber (24 November) on current issues in the EU prior to 2006 (Commission’s work program and the period of reflection)
- Interpellation debate (27 October), *The debate on the future of Europe*
- Visits to universities and public libraries in different Swedish Cities by members of the Committee on the Constitution and on Foreign Affairs to discuss the future of Europe.
- Issues related to the period of reflection/new treaty have been dealt with by the Committee on the Constitution in a report and debated in the Chamber (5 April)

2) The Committee on the Constitution and the Committee for Foreign Affairs will organize a seminar the 9th of May for a discussion on the future of Europe. During the current period of reflection no further activities are planned. But if the period will be prolonged until 2007, further activities can be expected.

Chapter 2

1) Scrutiny of subsidiarity etc is part of the current parliamentary scrutiny. There have been no specific changes in this respect. Changes were proposed but since they were related to the entry into force of the Constitutional Treaty, the changes have been “put on ice” also. No new treaty - no new regulations.

In connection with the normal pre- and post Council Scrutiny conducted by the Committee on EU Affairs a de facto subsidiarity check is always performed.

Chapter 3

The Committee on EU Affairs has scrutinized all the missions mentioned. Sometimes this is done in a broader context (for example when the Council is supposed to have a discussion and to decide on conclusions on Sudan/Darfur and this question is put on the GAERC agenda as a B-point whereas the Joint Action on a mission in Darfur might be decided as an A-point maybe on another Council agenda.) But sometimes the missions are scrutinized as such.

1) AMIS II. Yes. 15 July 2005.
3) Moldova and Ukraine. Yes. 3 October 2005.
4) EU POL COPPS. Palestinian territories. Yes. 15 July and 9 November 2005.
5) EUPAT. Macedonia. Yes. 18 November 2005.

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

The European Scrutiny Committee reported on Plan D in its twenty-second report (dated 15 March 2006) and recommended that it should be debated in a European Standing Committee.

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

The European Scrutiny Committee has no specific plans to ask for further debates. It would be possible for the Government to arrange a debate on its own initiative.

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

No. The European Scrutiny Committee will of course pay particular attention to subsidiarity and proportionality issues in scrutinising the two proposals identified by the COSAC chairpersons in February for this process.

Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

The Select Committee on the European Union is conducting an inquiry into public awareness and the role of the House of Lords, which will report during May. Copies of the report will be made available to COSAC colleagues. The House as a whole regularly debates EU matters, including issues related to the future of Europe.

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

See (1) above.

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

The Committee’s report of April 2005 on the Constitutional Treaty’s subsidiarity mechanism was followed by a Government response and follow-up report in November 2005. The two reports were debated in the House on 15 December 2005. All Sub-Committees continue to monitor subsidiarity and proportionality issues as part of their ongoing scrutiny work.

Chapter 3: Background: The 4th biannual report showed that Civilian ESDP missions are an area where there is rapid growth in the level of EU activities. This has been emphasised by the fact that since the questionnaire for the 4th biannual report was sent out, 6 more operations have been agreed by the Council.

1) On 18 July 2005, the Council agreed Joint Action 2005/557/CFSP establishing the EU civilian-military supporting action to the African Union mission in the Darfur region of Sudan (AMIS II) (AMIS EU supporting action). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

2) On 9 September 2005, the Council agreed Joint Action 2005/643/CFSP establishing the EU's Aceh monitoring mission (Indonesia). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Sub-Committee C (Foreign Affairs, Defence and Development Policy) took note of the operation on 27 July 2005 on the basis of a letter from the Government dated 20 July—when later formally deposited the document was not sifted for scrutiny.

3) On 7 November 2005, the Council agreed Joint Action 2005/776/CFSP establishing an EU border assistance mission to Moldova and Ukraine. Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

The 'EU' border mission to Ukraine/Moldova is in fact an EC mission, funded by the External Relations budget and run by the Commission—so not an ESDP mission. The Joint Action, agreed on 7 November 2005, did not authorise the mission but amended the Moldova Special Representative’s mandate to take account of the Commission mission. Sub-Committee C (Foreign Affairs, Defence and Development Policy) scrutinised the Joint Action on 3 November 2005 on the basis of a government explanatory memorandum dated 20 October. A letter was sent to the Minister on 3 November.

4) On 14 November 2005, the Council agreed Joint Action 2005/797/CFSP establishing an EU police mission in the Palestinian territories (EU POL COPPS). Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

5th biannual report - contributions of the European Parliament

Chapter 1: Stock taking of debates in national parliaments on the period of reflection

Activities of the AFCO committee

After the negative outcome of referenda on the Constitutional Treaty held in France and the Netherlands and the following European Council of 16/17 June 2005, Parliament's Committee on Constitutional Affairs (AFCO) discussed options of action during the period of reflection within the process of ratification. The prevailing feeling was that even if the actual preparation of activities would have to take place on different levels AFCO could play a suggesting and initiating role. It was held furthermore that whilst the European Council had by no means suspended the ratification process but rather extended it in time, AFCO should go on sending delegations to national parliaments in order to discuss the state of affairs trying to contribute positively to the forming of opinions on constitutional matters.

It may be recalled that AFCO has up to now carried out nine delegation visits to national parliaments: London, 25 January 2005, Brussels, 2 March, Paris, 16 March, Luxemburg, 29 April, Tallinn, 30/31 May, Warsaw, 27/28 June, Prague, 4/5 October, Lisbon, 21/22 November, and Helsinki, 7/8 March 2006, where a strong plea was made for Finland to ratify now. For the second half of the year a delegation is planned to Vilnius and a meeting with the European Affairs Committee of the German Bundestag will probably take place either in Berlin or in Brussels.

On 7 July 2005 AFCO was authorised by the Conference of Presidents to draw up an own initiative report on the period of reflection: structure, subjects and context for an assessment of the debate on the European Union. The report, prepared by the co-rapporteurs, Andrew Duff and Johannes Voggenhuber, led to a resolution adopted on 19 January 2006 by which it is proposed that the European Parliament and national parliaments should jointly organise conferences - 'Parliamentary Forums' - in order to stimulate the debate and to shape, step by step, the necessary political conclusions. The first event of this kind is now scheduled for 8 and 9 May 2006. At this occasion it is intended to address a limited number of priority questions about the future of Europe and the governance of the Union, such as:

i) Europe in the world and the borders of Europe
ii) globalisation and the European social and economic model?
iii) freedom, security and justice: what is the outlook?
iv) future resources of the Union?

Alongside with the elaboration of this report, AFCO continued its exchanges with the academic world by organising a symposium on 13/14 October 2005 on the future of the constitutional process of the European Union. Fifteen experts from Universities and 'think tanks' all over Europe were heard and engaged in a lively debate.

At the same time AFCO developed the debate with the social partners and the civil society at large. Thus, a 'European Forum for the Social Partners' was held on 21
March with UNICE, ETUC and CEEP participating and a 'European Forum for the Civil Society' is scheduled for 24/25 April

Chapter 3: Follow up on issues raised in COSAC's October Contribution

Chapter 3.1: Scrutiny of CFSP and ESDP

The European Parliament in its Resolution on the annual report from the Council to the European Parliament on the main aspects and basic choices of CFSP, including the financial implications for the general budget of the European Communities, proposed by Mr Elmar Bork, the Chairman of the Committee on Foreign Affairs and adopted by the MEPs on 2 February 2006 expressed the intention “to contribute to efforts to increase democratic accountability as regards CFSP issues by holding regular discussion with national parliaments within the framework of the quarterly exchange of views with the High Representative/Secretary General of the Council and the Commissioner for External Relations, including discussion concerning amendments proposed by national parliaments to Parliament's Annual Report on CFSP”.

Moreover, the European Parliament in its resolution encouraged both the Council and the Member States to further increase parliamentary scrutiny of the ESDP, at national level, by enhancing the role played by national parliaments in the authorisation of ESDP operations, and, at European level, by giving Parliament a major role in the scrutiny of the entire CSFP budget.

The important part of the Resolution is related to the financing of the CFSP by stressing that the joint costs for military operations within the framework of ESDP should be funded from the Community budget (as already occurs in the civil sphere in the case of police operations), thereby discounting the existing practice of Member States' subsidiary budgets or start-up funds.

The Resolution stressed that any future ESDP operations in the fight against terrorism, and in opposition to existing rules such as the principle that "cost lie where they fall" or any other ad hoc arrangement such as the "ATHENA mechanism", the joint costs of such operations should also be financed from the Community budget.

It is to be noted that the amount spent by Member States based on "cost lie where they fall" and those managed under the ATHENA mechanism“ fall outside the General Budget of the European Union, which the Treaties do not require to be presented to the Parliament.

Chapter 3.2: Better Regulation

Following the Commission’s communication on 'Better regulation for growth and jobs in the EU', within the context of the Lisbon Strategy, the European Parliament geared up its activities in this area and adopted several related reports in its plenary session on 4 April 2006.

The Legal Affairs Committee, put forward an own-initiative report on Better lawmaking 2004: application of the principle of subsidiarity (rapporteur: Bert DOORN, EPP-ED, NL), stressing the need for any Community legislation adopted to comply fully with the principles of subsidiarity and proportionality. The report supported the ambition of improving European legislation, with a view to enhancing growth and jobs, and underlined the need for an integrated and consistent approach to initiatives on "better regulation". The "better regulation" debate is seen by the EP as an occasion for reflection on legislation as a process designed to achieve clearly defined policy goals by committing and involving all stakeholders during all phases of the process from preparation to enforcement. Moreover Member States were encouraged to exchange experiences in the use of impact assessment. Among other recommendations, the need for the European Parliament to play a more active role in monitoring the implementation of European legislation in the Member States, and to make use of the network between the European Parliament and the national and/or regional parliaments, was underlined.

The Internal Market Committee (rapporteur: Arlene McCARTHY, PES, UK), put forward an own-initiative report on the implementation, consequences and impact of the internal market legislation in force. The committee emphasized the need for a common approach to better regulation, based on a core set of regulatory principles, namely subsidiarity, proportionality, accountability, consistency, transparency and targeting. The report also stressed the need for Parliament, Council and the Commission to establish 'better regulation' task forces, to set up an inter-institutional working group to develop training, skills and quality control and to share and benchmark better regulation best practice. It was also highlighted that Member States must ensure that they are not causing new implementation problems by imposing additional requirements at national level when transposing Community legislation (‘gold-plating’).

As part of its debate on the ‘Better Lawmaking’ initiative, the European Parliament considered two further reports on how EU laws are applied. The first, drawn up by Monica Frassoni (Greens/EFA, IT’) for the Legal Affairs Committee, set out a range of measures the Commission should take to improve Member States’ implementation of their obligations, while the second, by Giuseppe Gargani (EPP-ED, IT), for the same committee, strongly backed the Commission’s proposals on regulatory simplification, whether by repealing irrelevant or obsolete texts, codifying texts which have become over complex thanks to repeated amendment, or recasting measures which need revising and updating.

Chapter 3.3: Openness in the Council
The European Parliament took action to contribute to transparency and democratic scrutiny of the EU institutions. In two reports adopted on 4 April 2006, the EP calls for the Council to meet in public when it is acting as a legislator, and requests the Commission to revise existing rules and to table new legislation by the end of this year on "the right of access" to European Parliament, Council and Commission documents.

**Report by Mr. Mintz adopted at the plenary 4 April 2006**

The European Parliament adopted a report from which calls for the Council to meet in public when it is acting as a legislator. The report, by David Hammerstein Mintz (Greens/EFA, ES), backs a call from the European Ombudsman for the Council to review its refusal to do so.

At the October 2005 meeting of the Committee on Petitions the European Ombudsman - for the first time appearing at his own request (pursuant to Article 195 (3) of Parliament's Rules of Procedure) - submitted his Special Report on transparency of meetings of the Council of Ministers when it acts in its legislative capacity. The Committee decided to request authorisation to draw up an own-initiative report on the Ombudsman's Special Report, and Mr Hammerstein Mintz (Greens/EFA, ES) was nominated rapporteur.

In his Special Report Mr Diamandouros found that the Council had given no valid reasons for refusing to conduct its legislative meetings in public. His recommendation was that: "The Council of the European Union should review its refusal to decide to meet publicly whenever it is acting in its legislative capacity." The Ombudsman added that Parliament could consider adopting his recommendation as a resolution.

The Ombudsman's inquiry into this matter is based on a complaint by Mr Elmar Brok, MEP, and a representative of the youth group of the German CDU, in which they allege that the Council's Rules of Procedure are not in conformity with Article 1 (2) of the Treaty on European Union (as amended by the Treaty of Amsterdam in 1997), according to which the Council and the other Community institutions and bodies must take decisions as openly as possible and as closely as possible to the citizens.

Mr Mintz stated that it is not only a matter of principle that legislative bodies should meet in public, it is also of direct relevance to the European Parliament as well as national parliaments in their scrutiny role. For national parliaments it is of the utmost importance to be able to hold their governments and individual ministers to account and this cannot be done effectively if it is not clear how ministers have acted in the Council. Meeting in public would make the Council's work both more transparent and more relevant to citizens.

The Ombudsman considers that the meetings of the Council when it acts in its legislative capacity are not open to the public and that the Council's refusal to decide to open up these meetings is an instance of maladministration.

The Special Report shows it does not require a Treaty change to be implemented; it could be brought about through a change in the Council's Rules of Procedure. Indeed, following the reforms agreed at Seville, these Rules have been changed in order to
increase transparency, and the Council now occasionally meets partly in public when legislating.

The EP’s rapporteur endorsed the Ombudsman's conclusions and considers it unacceptable that an important law-making body of the EU still meets behind closed doors when acting as a legislator, especially at a time when the EU sees itself as a promoter of democratisation and accountability. It should therefore be seen to be practising what it preaches.

Mr Mintz was of the opinion that the European Parliament, through its competent committees, and together with all other parties that are working towards greater transparency of European governance, should bring maximum pressure to bear on the Council in order to persuade it to follow the Ombudsman's recommendation and adapt its Rules of Procedure.

Arguing that it is of the utmost importance for national parliaments to be able to hold their governments and ministers to account, and that meeting in public would make the Council’s work both more transparent and more relevant to European citizens, Members of the European Parliament call on the Council to take all measures needed to make the meetings in which it is acting in its legislative capacity open and accessible to the public.

The resolution contains also the request that the Council meetings should be broadcast and web cast, as well as for official transcripts of the legislative meetings to be issued.

Report of Mr Michael Cashman was adopted by the EP on 4 April 2006
The existing EU legislation on public access to the institutions' texts was the fruit of lengthy negotiations between Parliament and Council before its adoption at second reading in 2001. The European Parliament feels now that the final formulation has proven too vague as far as access to EU documents and Council activities is concerned.

Following this feeling, European Parliament, in a non-binding report by Michael Cashman (PES, UK), adopted a package of recommendations calling on the Commission to revise the existing rules and to table new legislation by the end of this year on "the right of access" to European Parliament, Council and Commission documents.

Firstly, the amended regulation requires access to be granted to all preparatory documents linked to a legislative procedure --including the opinions of legal services-- and also to the records of the Council debates where these institutions are "acting in their role as legislators" and to the identity of the author of each initiative. Secondly, the existing legislation should be modified as to define more clearly on what basis specific documents may be classified as confidential, "in order to protect the essential interests of the EU. MEPs want to prevent documents being classified as confidential "as a matter of routine, simply because they refer to an issue which is or might be relevant from a security point of view".
Finally, the European Union should limit the right of Member States to restrict access to their contributions and amendments in co-decision and other legislative procedures, say MEPs.
Chapter 1:

1) What initiatives has your parliament undertaken so far in connection with the period of reflection on the future of Europe and/or in the framework of the Commission’s Plan D (COM(2005) 494, 13 October 2005)?

2) Does your parliament plan any further activities in this regard between now and the end of the period of reflection?

Answers:

1) Referring to the Constitutional treaty/period of reflection for the Europe day, in May 2005, our EAC, together with the European Movement of Macedonia (NGO), organized a debate on the EU Constitution. This debate was broadcasted in whole on the parliamentary TV channel. The participants included MPs, NGO, experts and interested citizens. There were also debates on the TV channels, where the Chairperson of the Committee on European Affairs participated.

2) Because we are in the pre-election period, at the moment we do not have any activities in the Parliament about the period of reflection. But we are very interested in closing this item by the EU member states, considering that the ratification of the Constitution Treaty will contribute to continuing the process of enlargement of the EU.

Within the framework of the manifestation "Parliamentary Days 2006", by which we commemorate Europe Day, in May, the EAC and European Movement of the Republic of Macedonia are considering to organize an open debate about the period of reflection and the impact that the European Constitution will have on future enlargement of the EU.

Chapter 2:

1) Have there been any developments relating to the scrutiny of subsidiarity and proportionality in your parliament since October 2005?

Answer:

The EAC had only an informative discussion about the principles of subsidiarity and proportionality at its meetings. The EAC Chairperson presented the COSAC documents referring to the principles of subsidiarity and proportionality to the members of the Committee and than to all MPs.

As a candidate country we are in the phase of only adopting the EU legislation, with no active say on its creation as the national parliaments of the member states do. However, we have concluded that these principles will have to be reflected in our rules of parliamentary procedure and committee work once we become a member state. We also suggest that COSAC should open a
debate and give recommendations how these principles should be reflected in the work of the national parliaments of EU candidate countries.

Chapter 3:

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Answer: NO

Answer: NO

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

Answer:

Considering that the EUPAT mission is established in December 2005, the Committee will scrutinise its work after six months work, to be more precise, in July this year (or after the 2006 parliamentary election).

EAC scrutinised the EUPOL "PROKSIMA" mission every six months, and prepared biannual reports to inform the Parliament. At the end of the mission the Committee made a final report for the whole period starting from 15 December 2003 - until 15 December 2005. In this report the activities of the mission related to giving
technical assistance, the reforms of the police, combating organised crime and the realisation of project of CARDS programme were positively assessed. After the establishment of the EUPOL "PROKSIMA" mission (15 December 2003) the Speaker of the Parliament of Republic of Macedonia, the Chairperson of the EAC and the Coordinators of the political parties represented in the Parliament visited the mission PROXIMA in its office.

However we want to note that EAC through the web site of the Parliament of the Republic of Macedonia, made a survey on the questions: "Do the citizens of the Republic of Macedonia believe in the PROXIMA?" and "Do the mission PROXIMA helps the Macedonian police to implement the EU standards?"

* * * * * *

The EAC also recommended that the parliamentary Committee on Foreign Affairs and the Committee On Defence and Security ask Ministry of Foreign Affairs to prepare biannual reports on the macedonia joining EU positions in the sphere of EU foreign and security policy and on common defence issues. The new Law on Foreign Affairs has given this recommendation a legal framework.

Did your parliament scrutinise this mission? If 'yes', please specify when this scrutiny took place.

The German Bundestag itself does not provide an internet forum or homepage dedicated to the European Constitutional Treaty or the period of reflection. Nonetheless, German citizens find all information about this matter on the pages of the German foreign ministry on [http://www.auswaertiges-amt.de/www/de/europa/verfassung/index.html](http://www.auswaertiges-amt.de/www/de/europa/verfassung/index.html) including a link to the German website of the European Union on the Constitutional Treaty. |

We made a theme-page for the European Convention, after that a theme-page for the IGC and after that for the European Constitution.

The activities of the Dutch senate in the reflection period are not categorised on one page but can be found throughout the homepages of the Senate’s committees on European Affairs and Justice and Home Affairs.

Although the website is in Dutch, the address is www.europapoort.nl , the specific link to the theme page on the Constitution is:
http://europapoort.eerstekamer.nl/9345000/1/j9vvgy6i0ydh7th/vgw3fiidckmd

The Dutch House of Representatives (Tweede Kamer) has no website or theme page dedicated specifically to the reflection period. As with the Senate, citizens, the media and civil society interested in the post-constitution debate will have to keep a watch on the activities of the European Affairs committee through the House’s general website, www.tweedekamer.nl.

During the campaign for the referendum on the European Constitution that took place in June 2005, most political parties in the Netherlands had (sections of their) websites dedicated to the European Constitution, but most of these have been taken down. A few parties have published pamphlets outlining their view on Europe after the referendum. These can be found on their websites. Parliament had some information as well, but this has been removed too.

In response to your question regarding an internet forum or homepage dedicated to the Constitutional Treaty/period of reflection, we enclose the address of the European Information and Documentation Centre (OIDE) web site: "Constitutional Treaty - debate". The web site provides the text of the Treaty (with index), its short characteristic, links to Polish Government internet forum and "Europa" web site dedicated to the Treaty as well as bibliography: documents of the European Convention, Polish and foreign major publications (including those of think tanks) concerning the issues of the Constitutional Treaty. The bibliography is constantly updated.

On behalf of the House of Lords the answer is no.

The European Union Committee is however conducting an inquiry into presenting and explaining the EU and details can be found at:

No, we haven’t, at the UK House of Commons

Rep. Checa

There is no special website dedicated to this topic in the Czech Senate. Nevertheless, some information is available at the homepage The Czech Senate and the European Union (http://www.senat.cz/evropa/index-eng.html), which has more general nature.

Rep. Macedónia

The National Assembly of the Republic of Macedonia does not have a special home page designated to the Constitutional Treaty yet. I will add and this information about your question about internet forum or dedicated to the Constitutional treaty/period of reflection.

That for the Europe day, in May 2005, our EAC, together with the European Movement of Macedonia (NGO), had organized debate on the E. Constitution. This debate was transmitted in whole on the parliamentary TV channel. The participants included MPs, NGO, experts and interested citizens.

Unfortunately we do not have such an internet forum dedicated to the Constitutional Treaty. But is in an excellent idea, I will propose to have it here too.

Suécia

The Parliament - neither the Parliament as such nor the EU Affairs Committee - does have a forum for discussion in its website. However, a thematic site is available at the EU Information Centre's web, see link (in Swedish only). But this site just comprise static info and it’s not possible to chat or anything.

Instead, the government has entrusted a Commission with the task to stimulate the debate on the future of EU. A forum can be found on their web (link below). It's also this body that will provide the government with information about the debate in Sweden, including events and debates in the Swedish Parliament, in time for the report to the European Council this summer.
