

## WE COME IN THE NAME OF PIZZA.

First and foremost, we make pizza the best way pizza can be made. We use the best stuff. We use our hands, our heads, our ovens, our hearts and our souls. We create mini-masterpieces of tasty goodness that are good for you, too. Not that this is a new approach, because it isn't. This is how pizzas were meant to be made. It's how they were made in the old world, before modern "conveniences" entered the picture, sullyng and soiling our objects of cheesy affection.

It starts with only the most pure, chemical-free foods we can get our hands on, be it organic veggies, hormone-free meats or all-natural cheese. We heart local ingredients because they taste better without the truck smell. We deliver our hand-crafted artisan pizzas in environmentally friendly boxes. In environmentally friendly vehicles. Eat them with environmentally friendly utensils and on environmentally friendly plates. We cater to vegans, veg-heads, gluten-free peeps and, yes, carnivores.

We do all of this to honor the pizza, and we do it because we are people who fell in love with a certain notion of what pizza is and what pizza can be and what pizza used to be and what pizza should be. Using awesome ingredients, making pies in a shape that makes sense to us. Enjoy the ride.

WE ARE ON THE WORLD WIDE WEB!
