When you sign up for Winter Hill Farm's CSA, you are making a commitment to our farm and family, just as we are making a commitment to you. We expect that you will pick up your share every week during the scheduled time. If you cannot pick up your share, it is your responsibility to find someone to take your share for you that week. **Shares left for more than 48 hours will no longer be available.** Our commitment to you- we will make every effort to provide you with the best possible farm products that we can while being responsible stewards of our environment. Please note that there are great rewards but also some risks of signing up for a CSA- we cannot guarantee the success of all of our crops every year, and members take that risk along with farmers.
