

Bernlohr Stadium Improvements Phase III

March 29, 2013

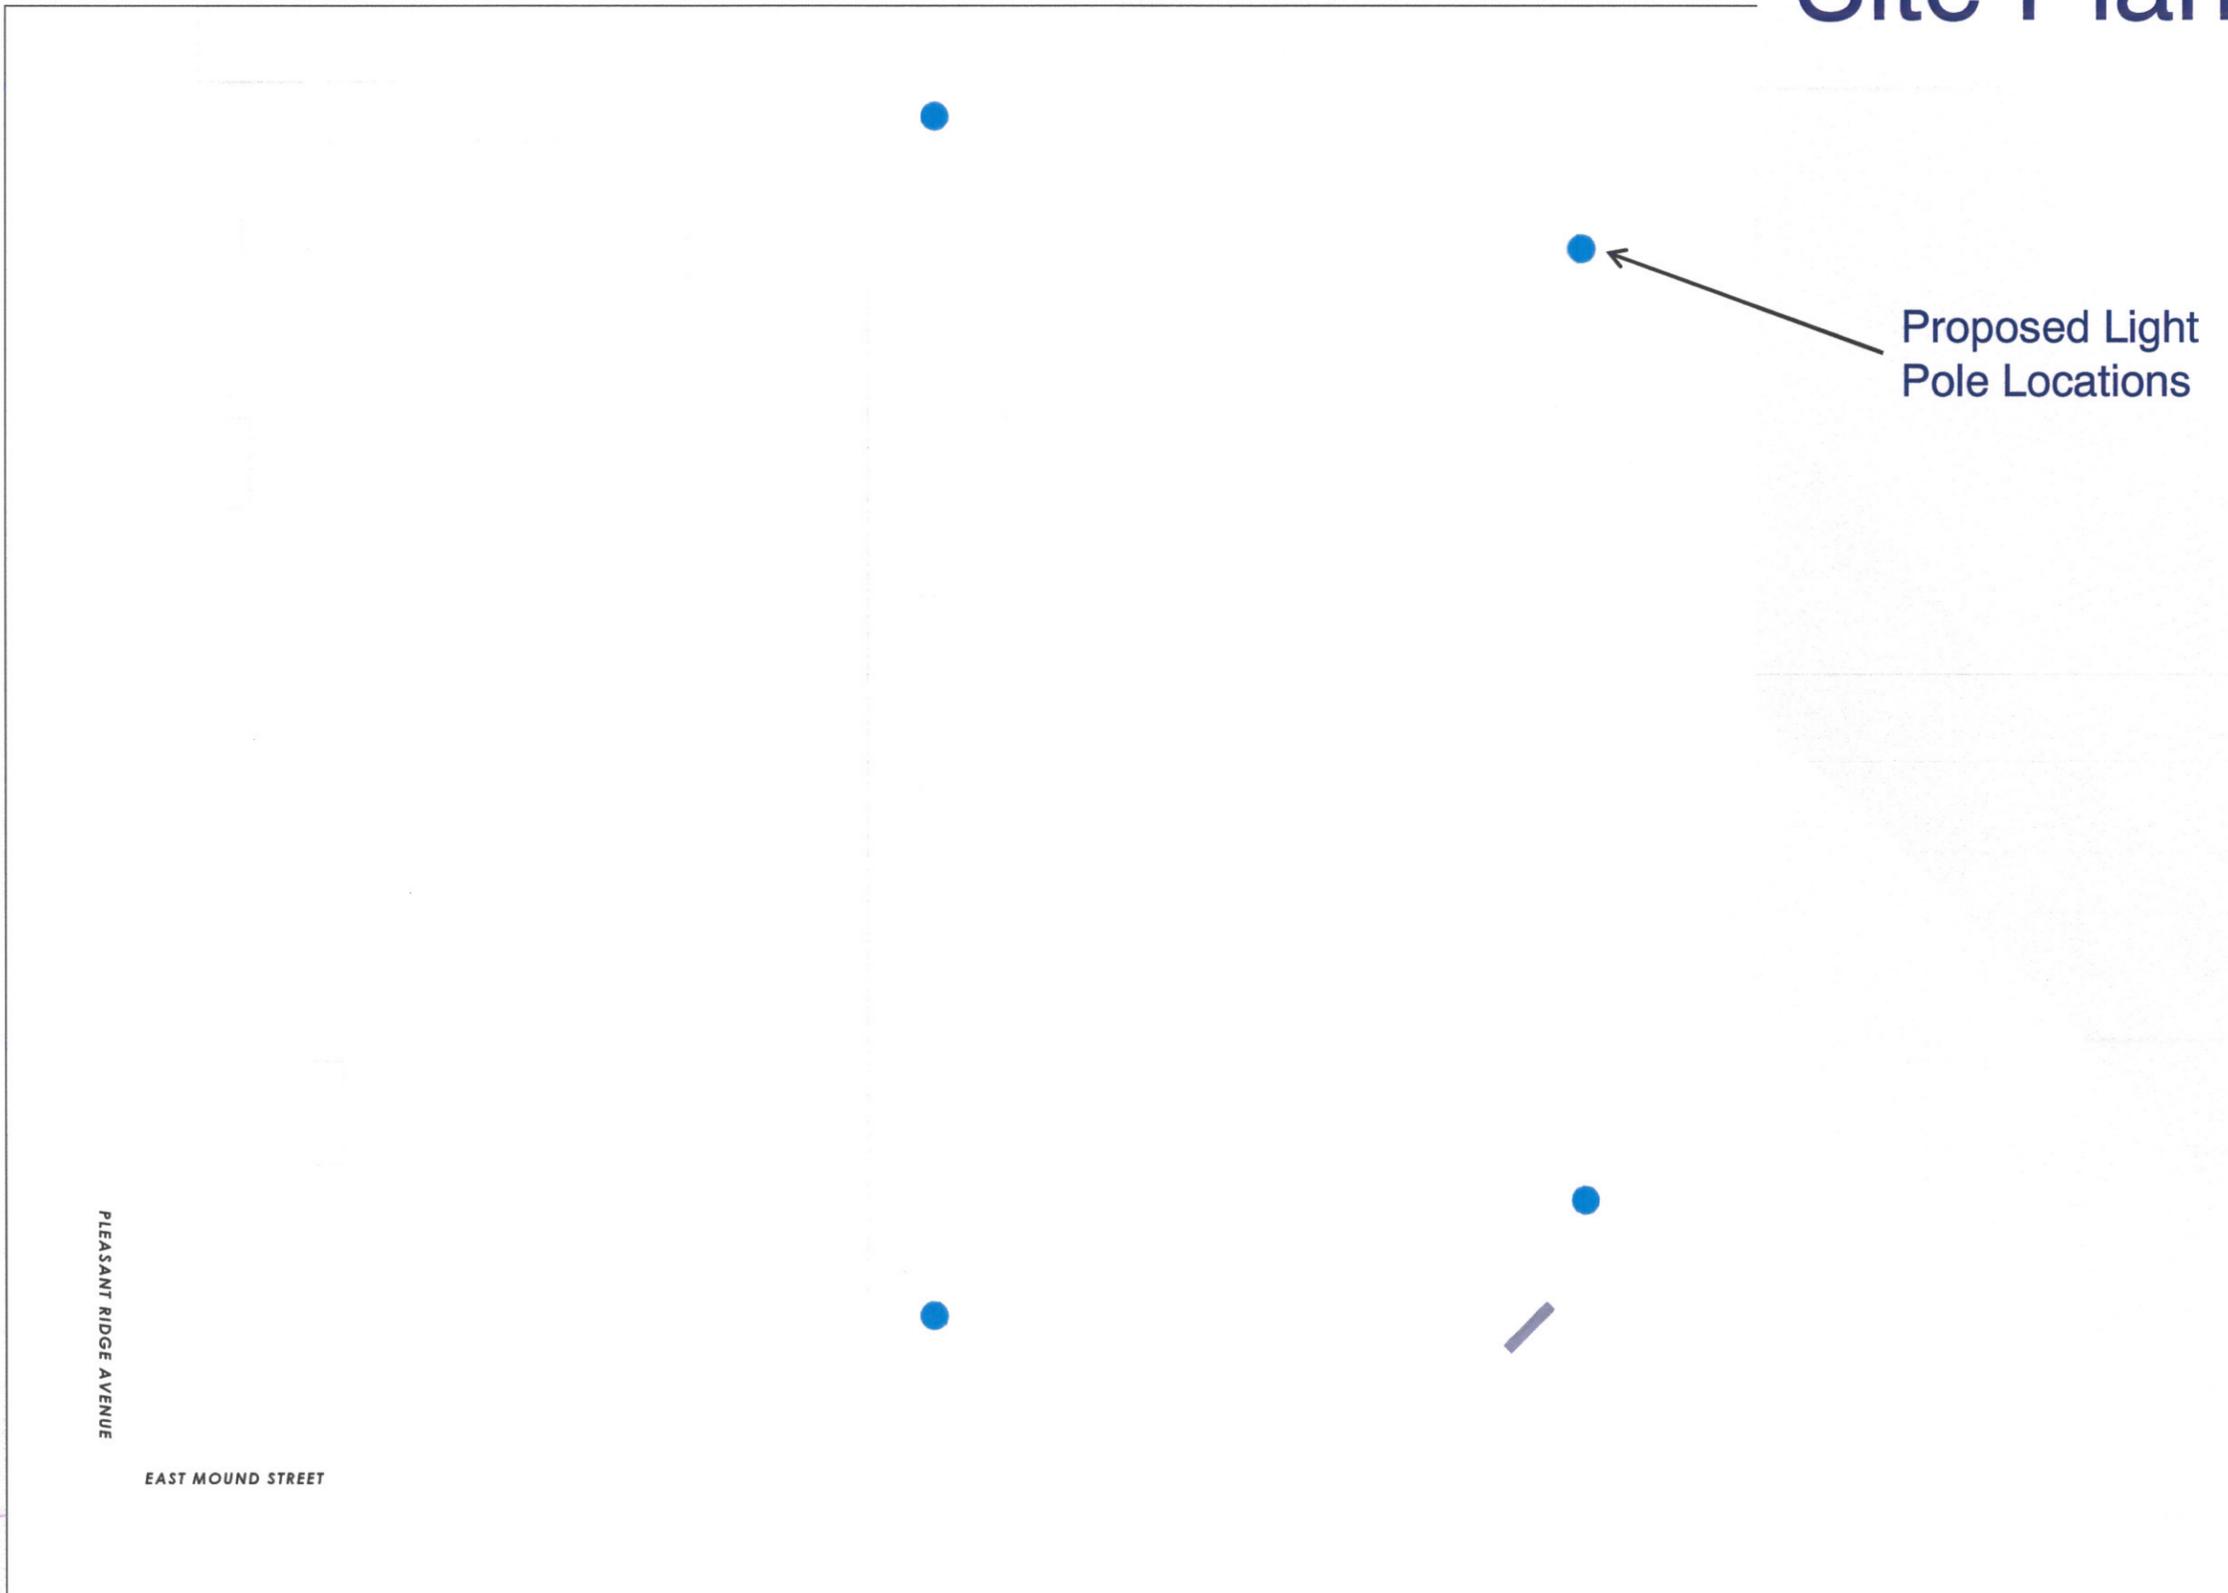

City of Bexley Planning Commission
Submittal – Field Lighting

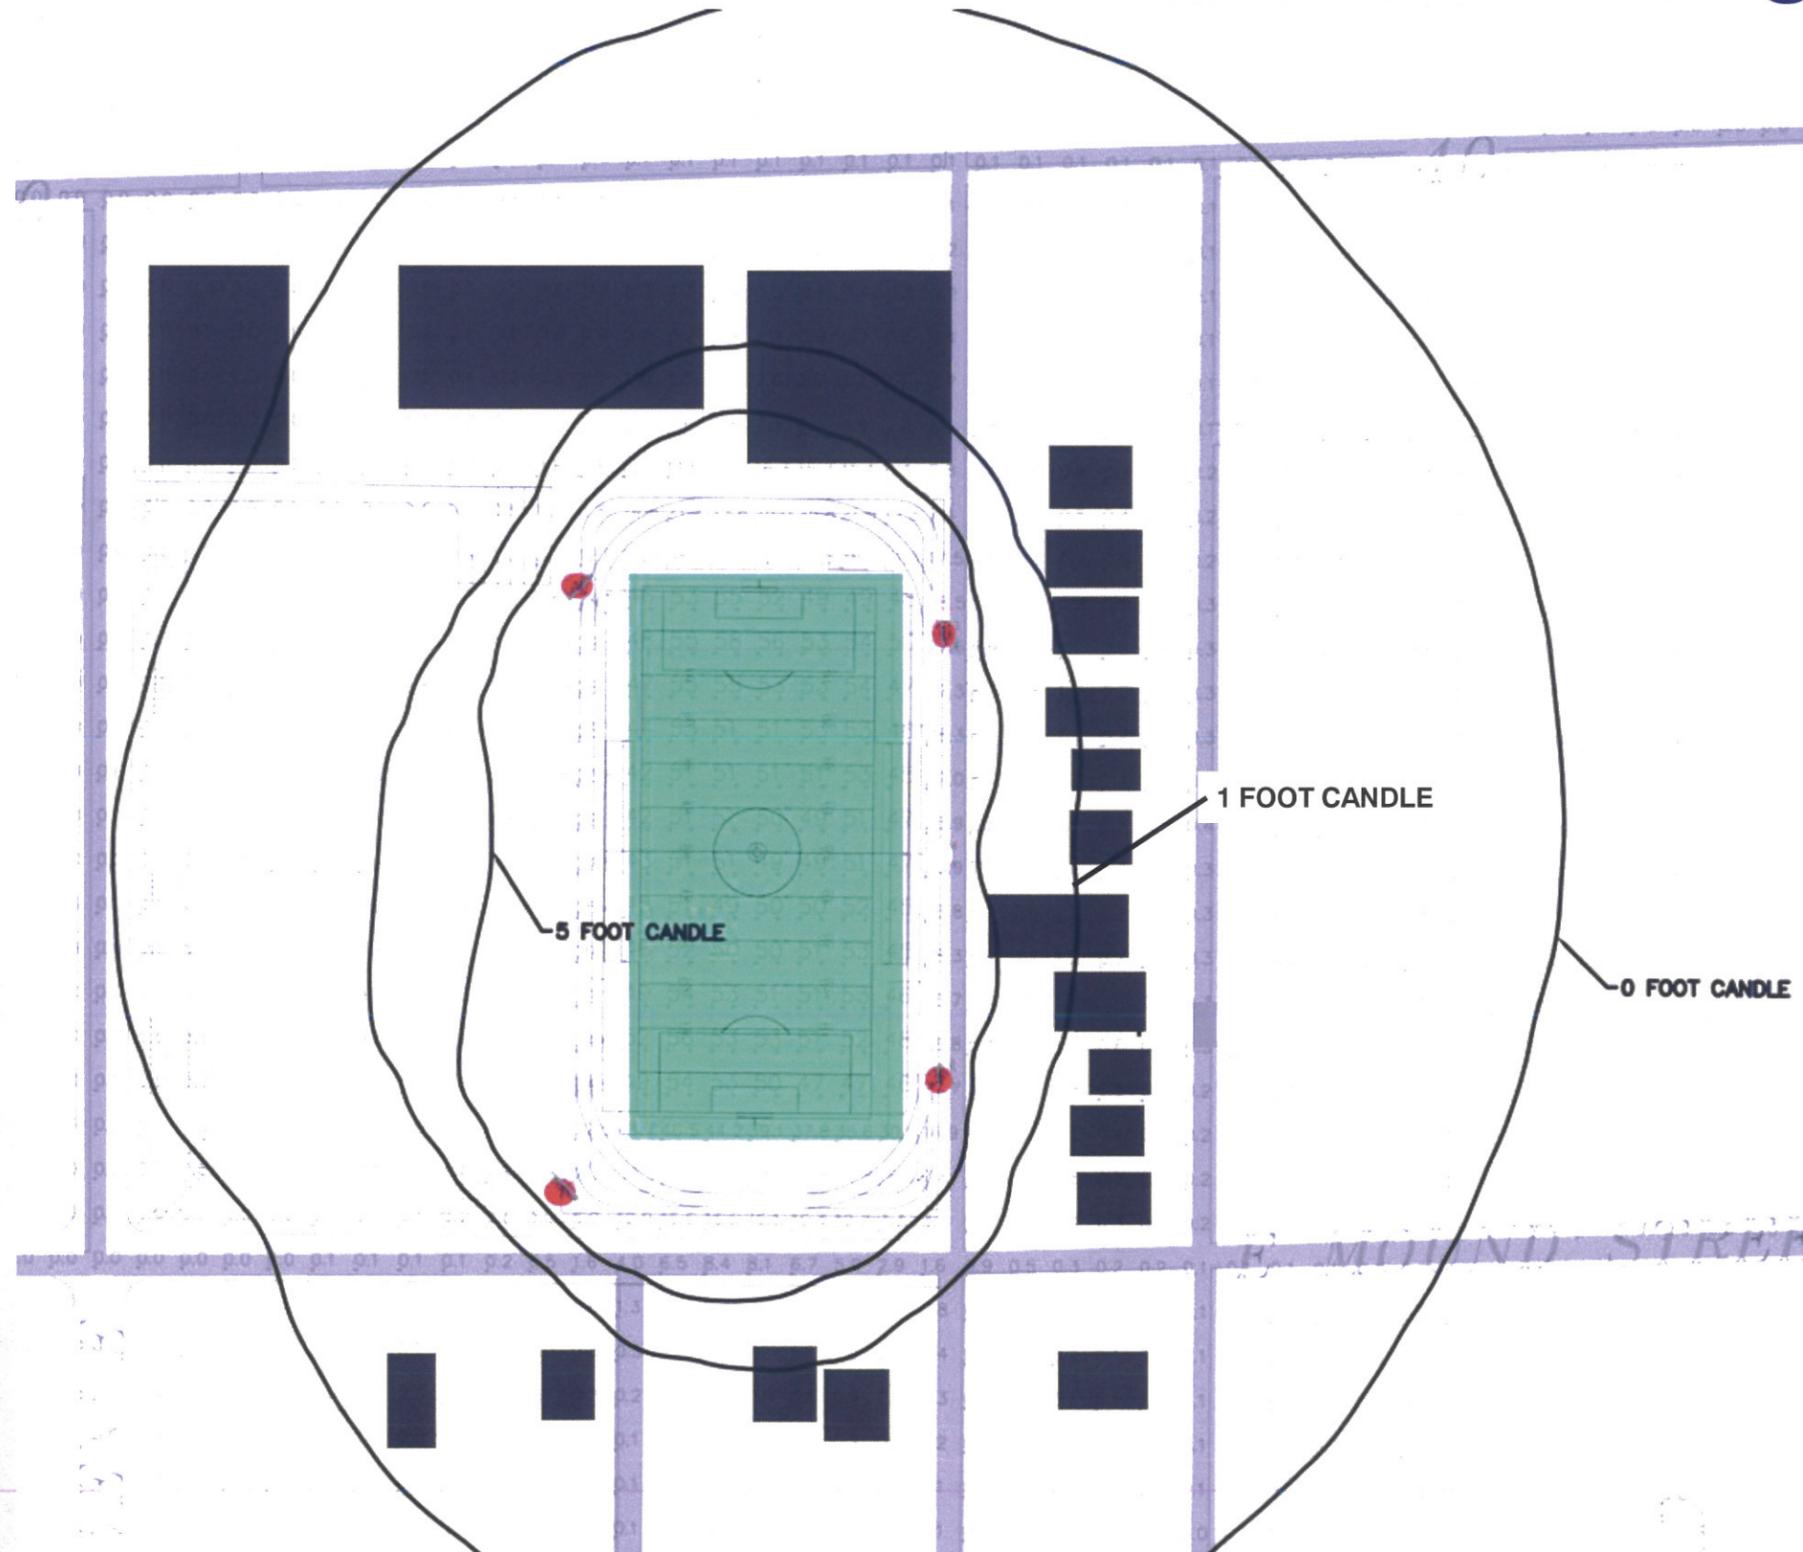

MOODY•NOLAN

Vicinity Map / Project Description

Bernlohr Stadium was constructed in 2001. This 2,500-seat venue with artificial turf is home to Capital University's varsity football and soccer programs. It also provides space to a number of intramural and recreational activities. The University recently completed Phase I of improvements to the stadium, including turf replacement, track replacement, and the addition of track field events and reconfigured track turns. Phase II scope completed in 2012 consisted of a new scoreboard and an access gate on the alley side (east) of the field. The proposed Phase III scope includes four sport light poles to provide field lighting.

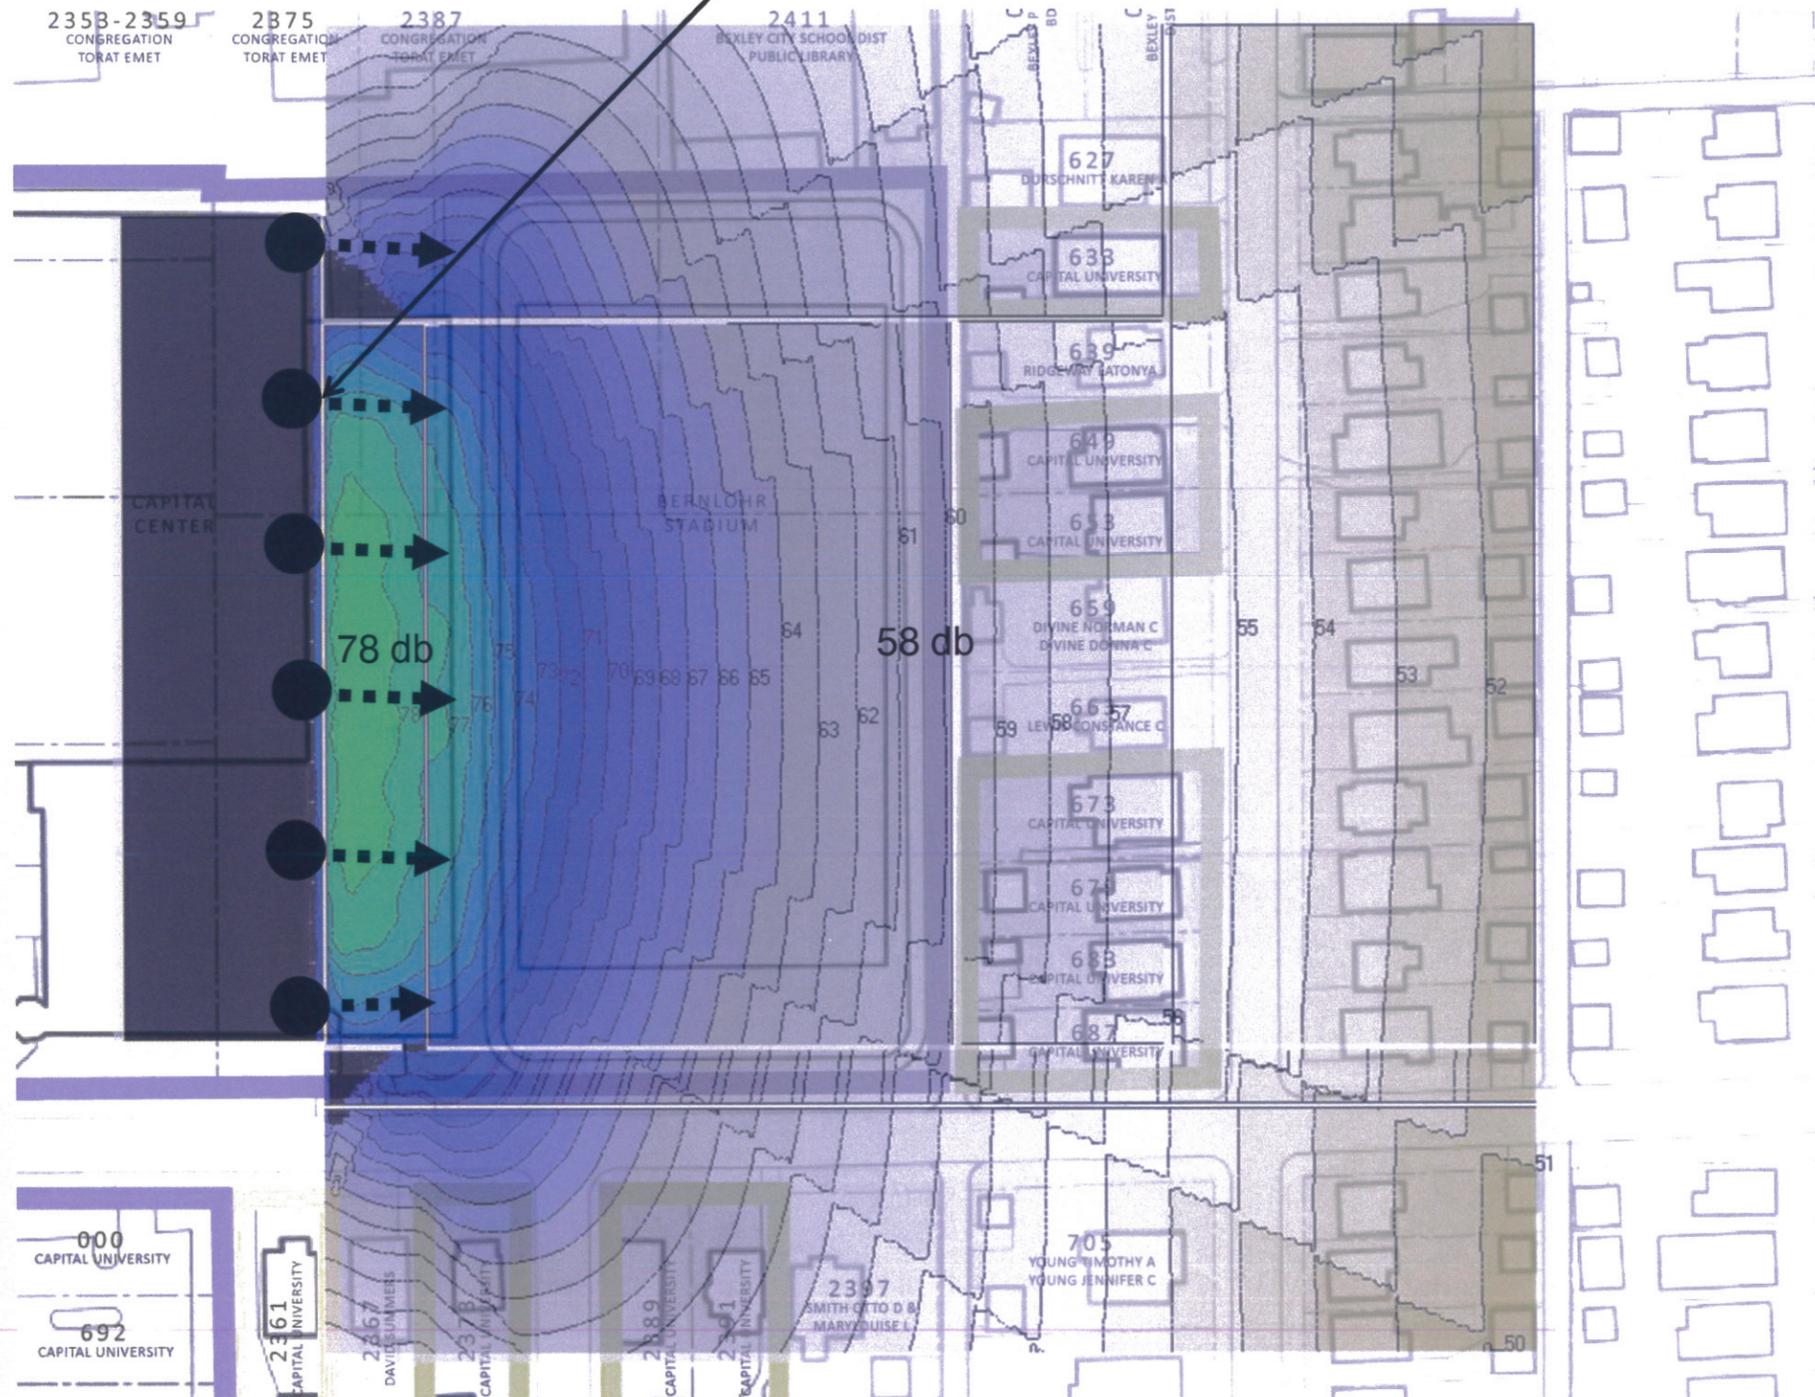

Item	Final Design
Number of Light Poles	Four
Light Pole Height	110'
Design Foot Candle Level	50fc
Fixtures per pole	13
Estimate	\$491,218
Lighting electrical cost of typ. 4 hr event	\$25.74

6 Speakers mounted
on 20' tall poles
at top of
Seating bowl
