Sirs/Madams:

My beautiful dog was killed by two neighbor pit bulls in my yard. They had played peacefully with him for two years before horrifically killing our sweet, neutered pet.

I knew nothing about pit bulls at that time, but I researched them afterward.

I found [dogsbite.org](http://dogsbite.org) and was stunned that pit bulls maul people and animals EVERY SINGLE DAY. When every circumstance surrounding the attacks is taken into consideration, the single common factor is pit type dog.

Now pit bull owners are selfishly endangering themselves and asking lawmakers to endanger the entire public by overturning breed specific laws put in place by a need that many cities are currently enacting laws for....pit bulls are the most dangerous dogs in the country.

When, not if, the pit bull lobby comes courting you with talk of discrimination, breed laws not working, pit bulls can't be identified, pit bulls are no different than other dogs, you can refer them to [NationalPitBullVictimAwareness.org](http://NationalPitBullVictimAwareness.org) and we can educate them how foolishly dangerous their stance is.

The very young and the very old are most frequently killed by pit bulls.

Thank you for your serious consideration before the dog fighting pit bull lovers send clueless owners and high priced lawyers to give away your public safety from fighting breed dogs.

I am a trauma nurse at a Level I trauma center. It is my nursing duty to notify you that breed specific laws must be enforced to work, but they work well when the penalty for disobeying them is so stiff that people don't want to break them.

This is a daily pit bull mauling...

The young and the old are the most vulnerable as this year's deaths show...

There is no excuse to allow pit bulls to do this to our children....

Naty Murphy is typical of the survivors of pit bull attack....

Zainabou lost her tongue and jaw to pit bull attack. No money will fix her.
