Ben Kessler, Mayor of Bexley,

I wanted to thank you and your city council for considering to lift the current Breed Specific Legislature that is in place banning Pit Bulls within the city limits of Bexley. In March of this year I accepted an employment offer here at Capital University and last month I moved from the west side of Columbus to the east side. I was considering and very close to moving to Bexley, however when I realized the city of Bexley has a BSL banning Pit Bulls, I knew I could legally live within the city limits as one of my two rescue dogs is a Pit Bull Mixed breed. I instead moved just outside the city limits. I believe that with the legislation has been proposed and the four requirements are in line with the idea of making owners responsible, and a step in the right direction. Would you be able to enlighten me though on what the obedience training would be? Many other cities have proposed that the dog receive the AKC Canine Good Citizen award for example. Thank you again Mayor.
