

Join the Partnership

Find out how your business can make a difference in the community today!

Communities throughout Franklin County have partnered with Franklin Soil and Water Conservation District to bring an opportunity right to your doorstep.

Participating communities will receive a letter in the mail from Franklin Soil and Water. Inside, businesses will find out how to become a **Water Quality Partner** and have the chance to take a **VOLUNTARY** pledge to keep the waterways in your community clean and healthy!

Pledged businesses will receive a window cling to display, be recognized on the web, and have access to the most up-to-date stormwater pollution information.
