TrafficSupplyInc.com

More durable than flimsy heat folded plastic barricades, these sturdy plastic and wood barricades sold by Traffic Supply, Inc. offer an economical solution for posting temporary no parking zones.

Features:

- 18" wide x 31" tall (approximately 27" tall when unfolded for use).
- Durable 10mm coroplast plastic front and back boards are break resistant and are lighter in weight and will not splinter like plywood boards.
- Long lasting digitally printed sign face is easier to read than stenciled faces.
- Solid 1½" x 1½" wood legs
- The vibration resistant hardware used for the leg hinge pins makes it less likely the barricade will ever come apart.
- Your company name stenciled on the back board at no additional charge.
- Custom sign faces available by special order at an additional charge.
