The Manager
Company Announcements
ASX Limited

Dear Sir,

The Company confirms that it is still in the process of reviewing operational matters including cost structures, reserve estimates and ongoing financing options. The outcome of these reviews and discussions could have a material impact on the financial results to be reported. It has therefore not been practically possible to finalise and release the financial results by the due date. The results will be published as soon as the issues under review have been finalised.

Yours faithfully,

Jeremy Shervington
Chairman
