Dear Guest,

Welcome to the fifth annual Excellence in Commuter Options (ECO) Awards!

The Massachusetts Department of Transportation (MassDOT) – through MassRIDES and MassCommute, the coalition of Massachusetts TMA's – have come together to honor Massachusetts employers in their efforts to reduce greenhouse gas emissions through decreased drive-alone trips while encouraging employees to travel to work by transit, carpools, vanpools, or by bicycling and walking.

I am pleased to see the work of so many of our Massachusetts employers, property managers, and municipalities as you promote sustainable commute options throughout your communities. The growth in this year's event reflects the strong partnerships that have been forged across the public and private sectors along with the dedication to make our communities healthier and more livable.

Massachusetts is regarded nationally as an innovator in promoting shared use of infrastructure on roadways across the Commonwealth. MassDOT has established numerous policies that emphasize consideration for all modes of travel when designing roadways. Additionally, MassDOT has worked with MassRIDES, MassCommute and other partners to spread awareness about travel options available to commuters. The efforts promoted throughout our network of Massachusetts employers to encourage employees to seek active, healthy, and sustainable commute options helps our state to reduce traffic congestion, promote healthy lifestyles, and benefit the environment. Your innovation is what drives us to success.

Thank you for all of the work that you do. I look forward to our continued collaboration in the years ahead as we strive to make Massachusetts a better place to work and live. Go Sox!

Warmest regards,

Stephanie Pollack  
Secretary and CEO  
Massachusetts Department of Transportation
