

## **Beat the Heat with our Summer Air Conditioning Special**

Dear Valued Customer,

Does your car's air conditioning seem to not be as cool as last year? It could be that your A/C needs to be recharged. On average, most vehicles will lose up to 15% of the refrigerant through the normal change of seasons.

It is a good idea to have your air conditioner checked every year as routine maintenance. This service can help prevent a bigger, more costly break-down from occurring.

### **KEEP IT COOL SUMMER A/C SPECIAL**

- ◆ **Air Conditioner System Performance Test**
- ◆ **Temperature Gauge Test**
- ◆ **A/C Refrigerant Topped off (up to 1lb)**
- ◆ **Comprehensive System Leak Check**

**All for just \$99.95 plus tax**

Not to be combined with other discounts, offers or specials  
Expires July 17, 2015
