Ms. Jessica Opper
 Program Specialist-Educational Programs
Cuyahoga Valley National Park Association
 3675 Oak Hill Road
 Peninsula, OH 44264

Website: <http://www.cvnpa.org/>

Organization Description: The Environmental Education Center (EEC) is committed to providing innovative programs for students and educators from northeastern Ohio and beyond. Set within the scenic Cuyahoga Valley National Park, the EEC is jointly operated by the National Park Service and its non-profit partner, the Cuyahoga Valley National Park Association. Surrounded by 500 acres of woods, meadows, ponds, and streams serving as the outdoor classroom the EEC includes two campuses: each with 64 beds, classroom space, science laboratory and dining hall.

Internship Program: Field Instructor - Graduate Level Internship: The curriculum for 4th - 8th grade students integrates global education, multi-cultural studies, environmental issues and the arts. The Cuyahoga River is a central theme, and units focus on its history, ecology, and the social, economic, and environmental interaction of rivers and people. Field instructors lead units, as well as teach day programs and participate in special programs from late August to early June. Room and Board. Senior or Bachelor's degree. First Aid and CPR required. Contact: Jessica Opper

Ms. Iris Broyles
Fossil Rim Wildlife Center
 2155 County Road 2008
 Glen Rose, TX 76043

Website: <http://www.fossilrim.org/>

Organization Description: Fossil Rim is a 1800 acre wildlife center accredited by the Association of Zoos and Aquariums. It is involved with preserving threatened and endangered species through captive breeding. Fossil Rim uses vans, jeeps and buses to escort groups through 9.5 miles of roads on the 1800 acre preserve. There are 1000 animals which roam free on four large pastures. Ecological tours provide not only natural history information but also vital messages about the worldwide extinction of wildlife. Fossil Rim has 16 endangered species, 28 exotic species, and a host of native TX animals.

Internship Program: After an intensive training session, interns team teach and eventually provide guided, natural history tours for the general public and for school groups. Interns also take part in both day camps and overnight camps for school groups. They present small animal programs, lead fossil hunts, and guide students through many other environmental education programs. Each intern is also asked to complete a project by the end of the 5-8 month program. Internships run February to August or September-January.

Ms. Sharon Franklin
 Director, Finance and Personnel
Center for Health, Environment and Justice
 150 South Washington Street
 Suite 300 P.O. Box 6806
 Falls Church, VA 22040

Website: <http://www.chej.org/>

Organization Description: CHEJ was formed in 1981 to meet the urgent need for support and technical assistance by people across the country, struggling for environmental justice. They are uniquely different from traditional environmental efforts, primarily consisting of blue collar workers, farmers, low income families and people of color. Their philosophy is to teach and empower by helping grassroots groups and individuals build upon their own strengths.

Internship Program: Interns play an active role among the staff of twelve and receive diverse skills through hands on experience. In addition to working on a special project interns will gain insight into the complexities of environmental issues that involve many different players, an appreciation of science for the public interest, the importance of data in advocacy work and a respect for the power of the informed citizen. Transportation costs to and from office. Winterim Internships also available.

Aviculture Internships Coordinator
International Crane Foundation
E-11376 Shady Lane Rd.- P.O. Box 447
Baraboo, WI 53913-0447

Website: <http://www.savingcranes.org/>

Organization Description: The ICF is a non-profit organization dedicated to the conservation and preservation of the world's cranes and the natural wetland and grassland communities in which they occur.

Internship Program: Intern positions are available in Aviculture and Field Ecology. Aviculture Interns will receive intensive hands-on training in the care and management to endangered cranes, including husbandry, handling techniques, behavior, stimulating reproduction, incubation, chick rearing, artificial insemination, health care, and genetic management. Two thirds of the interns time will be spent caring for the birds. Each intern is responsible for developing and completing a research project with staff assistance. Work schedules are based on a 40 hour week. No phone calls. Housing is provided. Senior undergraduates through recent graduates may apply.

Ms. Cheryl Todea
Seasonal Naturalist Coordinator
Trees for Tomorrow Natural Resources Education Center
P.O. Box 609
519 Sheridan Street East
Eagle River, WI 54521

Website: <http://www.treesfortomorrow.com/>

Organization Description: The forty-acre center located on the Eagle River chain of lakes is the base for their education programs on forestry, wildlife, water, and soil resources. Fourth graders through senior citizens participate in their three to five day education workshops.

Internship Program: The center offers 4 Naturalist Positions throughout the school year. These are teaching positions working with the student groups that visit the center. Room and board is provided. Cross-country ski experience is a plus but high motivation to learn and teach and desire to work with children are the real keys. College students at the junior or senior level with backgrounds in biology, environmental education, natural resources, outdoor recreation or related fields required. Recent Graduates preferred. School year term: August - May. Training and professional development provided.
