WISE KID-NETIC ENERGY PRESENTS...

This summer we're offering a week-long camp
that explores the frontiers of science and engineering!

Meet industry experts and university professors as passionate
as you are. Camp focuses on aerospace and space
ideas, with exciting demos and hands-on activities!

DURING THE EXPEDITION:

- Space Physics and Rocket Theory
- Build Tiny Robots
- Satellite Communications
- Geo-caching with GPS
- Remote Sensing
- Picosatellites and Nanotechnology
- High Altitude Balloon Launch,
- Model Rocket Building and Launch

Magellan Black Brant

KEY PARTNERS:

Canadian Forces School of Aerospace Studies,
Canadian Space Agency, Magellan Aerospace,
Manitoba Aerospace, Manitoba Network for
Science & Technology, Manitoba Rocketry
Group, Manitoba Satellite Interest Group,
University of Manitoba, Amateur Radio Club,
Canadian Space Society, WISE Kid-Netic
Energy.
