

LITTLE HEART  
(WEXLER)

Little heart, oh so blue  
I have come with love to mend you  
Little heart, don't you cry,  
With love's tenderness those tears will dry

We'll repair all that's worn and there  
Will be songs of laughter everywhere

Little heart, gone astray  
I will steer the stars to guide your way  
Little heart, all alone  
Darling, take my hand  
And come on home

Verses sweet serenade your sleep  
These psalms of love forever keep

Hush now, don't fuss now ,  
You're safe here, inside my arms  
All's right, just hold tight  
And dance loves waltz with me

We'll sail through tempest seas into  
A land, a life, so fresh and new  
We'll repair all that's worn and there  
Will be songs of laughter everywhere

Little heart never fear,  
I will always hold you close
