

MY SILENT STAR  
(WEXLER)

When I find myself alone,  
The sky grows dark, I'm on my own  
I wonder where you are?

I remember when we said goodbye  
You whispered darling don't you cry  
Your eyes burned beacon true

You said like the stars above,  
Forever, they'll blaze our love  
Look up and I'll be there

For you are my silent star  
Guiding me, guiding me  
And you are the greatest gift  
Here for me, here for me  
And you are the brightest light  
I'll ever see, in my life  
For you are my silent star

Whenever, the world proves cold  
All seems bought and sold,  
despair is everywhere

I close my eyes and call you near  
Your voice, your touch, they appear  
Your smile is everywhere

You say like the stars above  
Forever, they'll blaze our love  
Look up and I'll be there

For you are my silent star  
Guiding me, guiding me  
And you are the greatest gift  
Here for me, here for me  
And you are the brightest light  
I'll ever see, in my life  
For you are my silent star

This gift you gave to me shines for all to see  
My spirit soars with your love

Forever my silent star...
