

ASIA JAPAN

We pair the finest Ryokans and Kaiseki cuisine with private instruction in sushi making, gold leafing and meditation, visits to the world's largest fish market and escapes to Mount Fuji and nearby islands. Our tailor-made adventures in Japan offer a unique look at the nation's extraordinary crossroads of history and modernity, sophisticated handcraft, utopian landscape, fierce tradition and amazing gastronomy.

THE GETAWAY

LOOKING FOR LUXURY AND ADVENTURE? THE BOYS OF *Epic Road*,
A BOUTIQUE TRAVEL COMPANY, SHARE SOME OF THEIR FAVOURITE ESCAPES

AFRICA SERENGETI

Stand witness to the greatest migration of mammals on the planet across the vast expanse of the Serengeti plains viewable on foot, open 4x4 or hot air balloon. Come thrillingly close to majestic lions, elephants, zebra, giraffes, hippos and wildebeests, stay in some of the most lavish safari lodges on the planet, experience the surrounding beauty from your private veranda, pool and outdoor shower, sleep under unobstructed star-filled skies and truly have the trip of a lifetime.

ARCTIC

Our signature Northern Lights travel is the perfect way to see the Aurora Borealis.

Chase the green and purple hues by snowcat, dogsled or on foot and pair this exhilarating experience with sensational skiing, snow mobile safaris and ice cave explorations. Exhaust yourself with Arctic activities during the day and relax with the finest hotels at night - many of which feature award-winning bars and spas, roll-off roofs, outdoor infinity pools and gourmet cuisine.

ANTARCTICA

The 7th Continent, the single most dramatic, spectacular and untouched landscape on the planet - an absolute must for any true world traveller. Watch pods of killer whales hunt, marvel at the sheer size of blue whales as they swim up to your zodiac, visit beaches teeming with hundreds of thousands of curious penguins, and do all of this from the most luxurious ships known to mankind.

INDIAN OCEAN SEYCHELLES

A stunning archipelago of 115 pristine islands scattered across the impossibly blue Indian Ocean - the ultimate destination for an exclusive honeymoon, a romantic rendezvous or a family retreat. Soak up the sun, the spectacular mountain views, crystal clear waters and crescent shaped white powder beaches, and let us arrange for you to work with world-renowned scientists to help conserve native Giant Aldabra Tortoises and Sea Turtles.

CAPTIVATE, INSPIRE AND THRILL

FOUNDERS MARK LAKIN & MARC
CHAFIAN EXPLAIN WHY EPIC ROAD
IS THE WAY TO GO WHEN IT COMES
TO CULTURAL EXPERIENCES WITH
A TWIST

A UNIQUE EXPERIENCE

Epic Road's overarching vision is to use luxury leisure travel as a vehicle to elevate consciousness. We pair the finest luxury hotels with extraordinary immersive experiences that will quench the most avid of traveller's wanderlust. We help our clients discover our planet's best-kept secrets and hidden treasures.

We are strong advocates of wildlife preservation and a hand up rather than a hand out for those less fortunate. We pride ourselves on creating mind-expansive and life-altering travel. For us, luxury travel isn't just about single malt scotches and high thread counts, it's coming face-to-face with The Big 5, seeing the sunset and star-speckled sky from the other side of the world, experiencing a tribe's heritage, diving with whale sharks and conserving sea turtles, rhinos and elephants; it's luxury re-defined.

TRANSFORMATIVE TRAVEL

Epic Road has created a new genre of travel - 'Transformative Travel' - exceptional journeys that will inspire, captivate and thrill. We believe that travel can power massive positive change in the world; it has the ability to elevate awareness, evoke true empathy, offer a new perspective and galvanize leaders. If our clients simply go and return as they were before, we haven't done our job - we encourage people to pair romantic trips and family travel with short punctuated thought-provoking experiences. This makes for a far more rewarding experience, poignant memories and sparks a fire from within to transform the way we think and the way we treat the Earth, its people, and animals.
