This chart is for Architects, Plumbing Engineers, Contractors and others who specify enclosed wall supports for off-the-floor plumbing fixtures.

The specific purpose is to insure that specifiers provide sufficient wall space to properly install and conceal the types of supports shown.

All dimensions shown are minimum and can be increased to accommodate required variations or accessories.

The types of fixture supports shown are detailed in ANSI A112.6.1M.
MINIMUM SPACE REQUIREMENTS FOR ENCLOSURE PLUMBING FIXTURE SUPPORTS

**Horizontal Adjustable Carriers**

- **Double in Metal Stud Wall**

**Vertical Adjustable Carriers**

- **Double in Metal Stud Wall**
