Major Projects

U.S. Department of Defense (DoD); General Fund Enterprise Business System (GFEBS) (7/11 – present)

Data Management Specialist

- Coordinated detailed activities from multiple project teams for data collection processes
- Communicated with data owners on quality and consistency issues
- Served as a resource for system users and project team members regarding business processes
- Performed due diligence to prepare data for loading
- Responsible for analyzing conversion results

Abbot Labs; SAP Data Governance project (5/11 – 6/11)

Senior Data Governance Consultant

- Led team of two to configure and customize applications used to manage large volumes of data
- Conducted daily business requirements meetings with client

Maxum Petroleum; Project One (8/10 – 4/11)

Data Migration Consultant

- Led and managed a team of two consultants responsible for developing proprietary software application
- Led workshops with client after each conversion to review lessons learned
- Performed training and supervisory activities to consultants in using software tools

Anadarko; SAP Data Governance project (5/10-7/10)

Data Governance Consultant

- Assisted in developing a custom application for the client that was used to manage master data records
- Met with the client on a regular basis to determine business requirements for the application
- Worked closely with the end users during integration testing to explain application
- Led team in implementing process design changes as a result of testing

Lockheed Martin; OneAero project (11/09 – 4/10)

- Collaborated on a team of three to design and plan conversion loading process for data objects
- Worked with the client daily to further refine data mapping rules

Cargill; Tartan project (5/09 – 10/09)

- Led workshops for the client to compile business process requirements

- Validated that requirements were being met with software design

Ann Taylor; (2/09 – 4/09)

- Utilized data migration methodology and tools to review business rules and requirements to ensure compliance
- Provided training to client team member on Bank Master Data load
- Produced Data Conversion Documents for four conversion objects

U.S. Department of Defense (DoD); General Fund Enterprise Business System (GFEB) (2/08 – 2/09)

- Responsible for overseeing multiple test phases and final cutover phase leading up to software release
- Worked with functional team members to determine conversion design and business rules
- Worked closely with functional consultants to deploy financial objects

U.S. Department of Homeland Security (DHS), U.S. Customs & Border Protection Modernization Program (1/05 – 2/08)

- Led project team of twelve consultants. Worked with other Team Leads to determine business process designs and identify and resolve any issues
- Successfully met all deadlines, created project plans for multiple releases, determined resource utilization for team members for two releases, and reported weekly status to Team Lead
- Analyzed and reviewed functional design specification documents; Used client input to create technical design specification documents for multiple business objects
- Performed peer reviews of other team members' assignments

U.S. Internal Revenue Service (IRS), Integrated Financial Systems Project (5/02 – 12/04)

- Led a team of three to coordinate the development and testing of the travel expense business process. Served as primary point of contact for both fellow team members and the client for all changes, issues, or questions related to the travel expense business process
- Team Representative for the daily defect review board meetings during the Implementation phase. Responsible for following up with each responsible party to ensure completion
- Mapped business requirements with the client during project sessions and worked closely with other team members to finalize design
- Designed and executed test scripts. Participated in and supported several testing phases. Coordinated testing resources and ensured each test case was executed to completion

Security Clearance

Approved for Final Staff-Like Access. Moderate risk contractor position. Received clearance at Department of Homeland Security, Internal Revenue Service, and Department of Defense.
