The American Psychiatric Association, in joint providership with the Indiana Psychiatric Society, invites you to participate in the 13th Annual Regional Integrated Mental Health Conference.

PROGRAMMING

The COVID-19 pandemic, stories and images depicting racism against Black/brown/Asian persons, the raging war in Ukraine. The resulting impact on us all, our historically marginalized populations, our youth, and our international neighbors have worked in concert to expose the fragility of the mental health system in the United States. Psychiatrists have been called upon to rethink their practice of medicine while some are finding themselves also a victim of these circumstances.

This conference will look to help psychiatrists and other mental health professionals as they continue to forge new paths in psychiatry. While traditional clinical programming will be the focus, the lens of social inequities, the global pandemic, and trauma of war will be weaved in so as to better help our participants navigate their practice.

TARGETED AUDIENCES

Psychiatrists, Primary Care Physicians, Physicians of Other Specialties, Mental Health Providers, Psychiatric Nurses, Nurse Practitioners, Physician Assistants, and Hospitalists
