

A SAFE Bet: Students and Fire

Integrating leadership, training, education, and experience.

Widely distributed

Survey of members - desired outcomes

- ▣ Prescribed fire at home school or local districts
- ▣ S courses – information re: local schedules
- ▣ Academic courses – information and student reviews

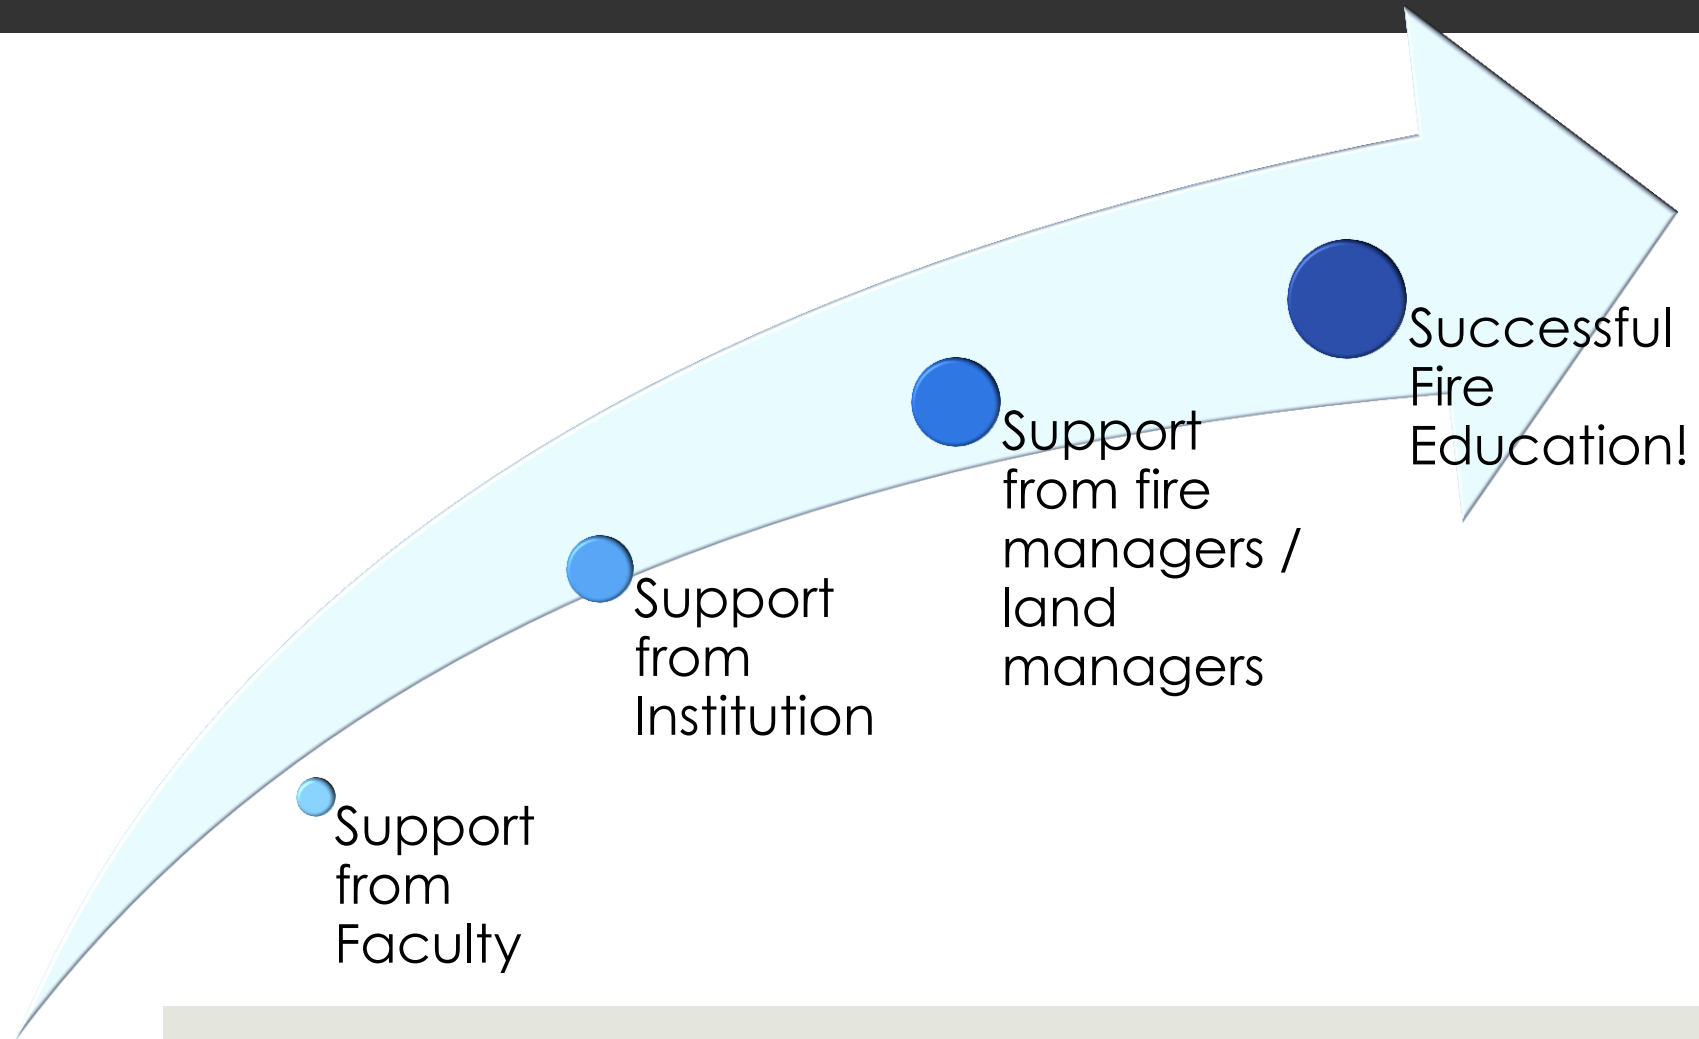

Common Challenges

- Access to training
- Access to experiential opportunities
- Access to “fire capital” – equipment, PPE, etc.
- Struggle with institutional support, student buy-in

Professional development triangle

A Way Forward

SAFE: Building the Groundswell

Increased exposure to fire as an ecological process

More training opportunities

Increased labor pool for fire operations

Increased regional fire capacity

Achieving Objectives...Together
