

# Tats Kiguchi!

Tatsuya Kiguchi, P.E., S.E.  
tkiguchi@leapstructures.com

## Position

Partner

## Roles

Financial Manager  
Project Manager

## Bio

Tats has a wide range of experience in structural design and project management that includes multi-family residential, mixed-use development, student housing, commercial, and institutional projects.

Tats began his professional career in Berkeley, California, working extensively on sustainable building projects that involved high-performance seismic design solutions, in addition to evaluation and design of seismic retrofits for historic buildings. He is proficient in analysis of dynamic responses of new and existing buildings and analysis of non-linear behavior of structures. Tats provides the company with specific expertise in the design of special seismic systems and ductile detailing elements, as well as tall building design.
