

Focus Area Design Proposals

Montara North Community Entry and Circulation

Proposed Improvements

- Raised medians from north of 1st street through south of 2nd street for gateway at the north end of the developed area of the San Mateo County Midcoast.
- Restricted access (right turns in/out) to/from central beach access lot.
- Designated pedestrian crossing at 2nd street with marked crosswalk and median refuge.
- Coastal Trail transition to west side of the highway to provide a walkway and bikeway in high use area.

Highway 1 facing north is shown above, just north of 1st Street with the Coastal Trail and the northernmost parking lot for the restaurant on the left. The existing paved width is about 48 feet. This section is designed to fit within the existing width.
