Dear Mr. Marsh:

Thank you for your letter regarding the funding request for the MidCoast Council's 92-93 Fiscal Year budget.

I support efforts to bring community concerns into the deliberations of the Board of Supervisors. Our original agreement was that the MidCoast Community Council would be a volunteer organization--not funded by county taxpayer funds. Help, if needed, would be provided by Supervisor Eshoo's office staff. I support our original agreement.

I also am in support of the independent fundraising activities you have planned, (including the fundraiser you mentioned at the Board meeting). I believe these activities, independent of government support are most likely to produce the type of independent community organization that you envision.

Yours truly,

SUPERVISOR TOM HUENING
