Re: Pedro Point - Highway One Devil's Slide Bypass

Dear Ms. Keatin and Mr. Delk:

At the August 11, 1993 meeting of the MidCoast Community Council, Ms. Dorothy Edminster made a convincing presentation to the Council and to the public. She carefully explained how and approximately where the proposed Devil's Slide Bypass alignment would not, in any way, affect the intersection of Pedro Point and Highway One.

The MidCoast Community Council wholeheartedly endorses the plans and safety improvements of the Pedro Point Improvement Association. The intersection is a terrible hazard in the best weather and any costs for this change are minimal when the health and safety risks are evaluated.

The MidCoast Community Council unanimously supported the position of the Pedro Point Improvement Association. All of us who live along the coast must work together to better our home environment.

If we can be of any further assistance to you on this matter or other related Coastside issues please feel free to contact the Council or any of us individually.

Sincerely,

Nadia Bledsoe  
Chair, MidCoast Community Council
