

About the Roundtable

The SFO Roundtable is a voluntary committee that provides a public forum to address community noise issues related to aircraft operations at San Francisco International Airport. Created in 1981, the Roundtable provides an opportunity for the public to address their local elected officials, Airport management, FAA staff, and airline representatives, regarding aircraft noise issues. The Roundtable monitors a performance-based aircraft noise mitigation program, as implemented by Airport staff, interprets community concerns, and attempts to achieve additional noise mitigation through cooperation between the airline industry, the FAA, Airport management, and local government officials.
