

Midcoast Community Council, November 2018
Ballot Statement

MICHELLE WEIL
Tech Executive / Mother

I'm thrilled to be running for a seat on the Midcoast Community Council. As a relatively recent transplant to the coast, my husband Seth and I moved here from San Francisco to be closer to family and to give our two-year-old daughter Kalia the opportunity to grow up with all the advantages the coast has to offer.

I have nearly 20 years of experience in business, as an accountant, market researcher, and most recently as a marketing executive for various tech startups. I have also been involved in local leadership as the president of the Bay Area alumni association for my alma mater, the UCLA Anderson School of Management.

I hope to draw from these experiences to advocate for our community and to preserve our local lands and small town character. We are so fortunate to live here, and I believe that we can protect our heritage while improving education and infrastructure in a cost-effective manner with slow, sustainable development that preserves what makes the coast so special for all generations.

If you have any questions or would like to know more about me, please don't hesitate to reach out at michelleweilmcc@gmail.com.
