

***Animal Nutrition and Productivity specialists.
Get the best from your livestock!***

Malijo is a small business that is passionate about helping livestock producers to become increasingly efficient, profitable and sustainable within this constantly changing environment.

"Malijo Consulting has helped us significantly increase productivity and as a result improved efficiency, pushing our farming system into the future.

Brad Windridge – Leitchville.

"Since introducing the GT 10 to our herd, the cows have performed better, had lower cell counts and fewer mastitis and never been happier!"

Brad Wren – Strathmerton.

GT Flush – A brilliant combination of Essential Fatty Acids, vitamins and minerals aimed specifically at improving ovulation and early embryonic development. GT Flush - ideal for your flush cows and all recipient animals in the program, especially your maiden heifers.

GT Stay Dry – A fantastic complex of vitamins and minerals designed for your dry cows and young stock. Mineral back grounding significantly improves reproduction and general herd health of your livestock.
