

Rakhma 2019 Rates & Fees

Rakhma's approach is holistic with an emphasis on maintaining residents in the least restrictive manner. We will provide services that are appropriate, while supporting, aiding and involving the family members as care partners whenever possible, and always treating residents with the joy and love that are the foundation of Rakhma's philosophy.

Most residents come to Rakhma when their needs require 24-hour care. They may be confused when alone, but are successful with items setup, personal reminders or someone to be with them during cares.
