For a sinful world
You had come to die
For the love you'd shown
You were crucified
They put on your crown
And the blood came down
So that we could have new life

We will rise up from the ashes
Like you rose up from the grave
Through the troubles of these ages
And the trials of our days

We will rise up from the ashes
Like you rose up from the grave
And we'll stand with you in glory
On that resurrection day

For the helpless ones
For the weak and poor
For the hurting soul
There is hope in store
For the stone that day
It was rolled away
So that we could have new life

We will rise up
We will rise up
We will rise up
We will rise up
