

# Meet Tori

I have been a Washington resident most of my life. I enjoy gardening both flowers and vegetables. I bicycle year round and I love animals. I have 3 wonderful small parrots, a rabbit, and my service dog. I work for WDCD, Inc (Advanced Employment Services.)

When I first started at WDCD, Inc in Sept. 5th 2002 my job title was (SCL), Supported Community Living. After four years I moved into a position as Job Coaching, and I have been doing that for nine years now. I serve as an on-going training and support to individual's with disabilities to choose, obtain, and maintain competitive community employment.

I work part time as a freelancer artist out of my home. "Sueppel Photography & Studio". For several years I have done shoots at event with individuals with disabilities. I also do specialized portraits, wedding, seniors pictures, and animals. My favorite part being of an artist/ photographer is creating a friendly, intimate atmosphere in which people can relax and have fun.

My photography style is candid and photojournalistic with little posing: even in senior and wedding sessions I find that the best photos are the one you weren't expecting to see. I also enjoy drawing color pencils as well. I mostly do people and animals for drawing.
