

REPORT TO THE AACPM BOARD OF DIRECTORS
From the Institutional Residency Development Committee
July 22, 2015

All members are currently active with following up with contacts from the Facilitation Project and reaching out to new contacts.

Contacts from the IRDC are compiled on a monthly basis on a spreadsheet. New contacts outside of the facilitation project are identifiable on the spread sheet. This spreadsheet will be distributed quarterly for IRDC members to review in advance of our quarterly meetings.

[Attachment A]

As of May 29, 2015:

Total Contacts made by the IRDC since January: 133
New contacts outside of the facilitation project since January: 22
Number of facilities working on a CPME 309 application: 9

The Committee works well together to assist in residency genesis. The group has discussed how Public Health Studies could help us reach out to various agencies for grant money for future residency programs. The Committee is also working together resolving questions that arise. We recently had a good response to a member that had a question about rolling averages as it pertains to increasing entry level positions at a current program. The Committee shares resources to assist in residency development discussions.

I was wondering if you could help me formulate a "business plan" type of document I can present to leadership here. Example of some questions being floated around here are: - Why do we want a residency program? - What's in it for our VA to have a residency program? - Why should we allocate time for Dr. Estrada to cultivate a residency program? - What are the potential expenses associated with having a residency program? 4/13/15 Dr. Hetherington has called multiple times and also sent emails to contact Dr. Estrada. He has not received any response. The phone number listed is incorrect. Dr. Hetherington spoke with Dr. Robbins and Dr. Robbins advised Dr. Estrada should call him to initiate this. 4/14/15- Dr. Hetherington spoke with Dr. Estrada and advised him to contact Dr. Robbins since this is a VA program. The contact information has also been updated with Dr. Estrada's cell phone number.

	May-15	Cleveland Clinic	Cleveland	OH	Stella Chiunda, DPM; Patrick McKee, DPM	AZPod		4	Dr Chiunda contacted me to see if I could assist her in developing a collaborative residency program; she proposes the first year would be done at the Cleveland Clinic, providing the resident with non podiatry rotations and some forefoot procedures. The 2nd and 3rd year would be done at another hospital. Dr Chiunda wanted to know if any AZ hospitals would be interested. I was then contacted by Craig Fox DPM in Chicago who is interested in training 2,3 year residents at a group of surgery centers, but needs a hospital to partner with. I have facilitated the conversation between Cleveland Clinic and Dr. Fox. Dr McKee is going to discuss idea with the Cleveland Clinic GME. I also briefly discussed the situation with CPME to see if it was plausible. Per Dr. Violand Dr Chiunda contacted me initially to help her partner with an Arizona Hospital, although Cleveland Clinic is KSUCPM region.
