FluidAxis™ Midsole Technology enables your feet to move in a side-to-side motion, making for a more natural ride.

MEN'S T533N 7-13, 14, 15 | **WEIGHT:** 9.2 OZ.
MIDSOLE HEIGHTS | **HEEL:** 20MM **FOREFOOT:** 16MM

WOMEN'S T583N 5-12 | **WEIGHT:** 7.5 OZ.
MIDSOLE HEIGHTS | **HEEL:** 19MM **FOREFOOT:** 15MM

FEATURES

- AmpliFoam™ Midsole** – Engineered to maintain durability at softer densities, providing better flexibility, comfort, and platform adaptability ideal for natural running.
- FluidAxis™ Midsole Technology** – Anatomically correct deep flex grooves have been aligned to the joints of the foot. This innovative construction enables the shoe to recognize, adapt, and respond to the athlete's exact load and positional change from first impact to toe-off.
- Solyte® Midsole Material** – ASICS lightest midsole compound has been reengineered to reduce weight while providing enhanced cushioning and exceptional durability.

- ComforDry™ Lasting** – The lasting material features plush underfoot comfort while providing excellent moisture management, high level breathability, and antimicrobial properties.
- ComforDry™ Sockliner** – Provides cushioning performance and anti-odor properties for a cooler, drier, healthier environment.
- Seamless Construction** – The use of seamless materials reduces the potential for irritation and friction caused by traditional stitches and seams.
- Natural33™ Last** – Mimicking the shape of the foot, this anatomically shaped last provides a secure heel fit and an ample toe box that allows the toes to splay.
