## **PREFACE**

### **DEAR READER,**

Mothers' Mercy Home (MMH) is an early intervention project that caters for disadvantaged children since 2001. It prevents them from suffering adverse health, neglect, delinquency or any other problem that interferes with positive child development.

In 2013 nineteen highly motivated boys and girls aged 17 to 18 will be the first MMH children to graduate from secondary school. We are in search of potential educational sponsorship to facilitate in their further studies after form four.

In addition, we encourage these youngsters to get some real work life experience during internships before they continue with their studies at colleges and universities.

Therefore we are searching for internship positions in the following areas:

- Administration
- Carpentry
- Design, graphical engineering
- Engineering
- Finance
- Mass media
- Law
- Nursing
- Security Services, Police, etc.
- Tourism, Hotel Management

Employers who support internships do not only contribute to a child's future career, they also will benefit from early talent management, as they have the chance to get to know young high performers and attract them to their companies.

If you are interested in becoming an educational sponsor or in offering an internship position please feel free to contact us, we will be happy to assist you and will appreciate your questions or suggestions. Thanking you in advance.

With God's blessings

Yours sincerely
